Rotating Medical Students

MS3 - Career Exploration Rotation

This is a two week-long rotation designated for EVMS students interested in exploring plastic surgery as a specialty. We are excited for you to join us and for everything we hope for you to learn along the way.

The rotation is designed for the student to be rotating at the Children's Hospital of the King's Daughter for one week, followed by another week of rotation at Sentara Norfolk General Hospital.

For more information, please contact Alyssa Reese 5859436010.

MS4 - Sub-I Rotation

This is a one-month long rotation designed with Children's Hospital of the King's Daughter for two weeks, and another two weeks at the Sentara Norfolk General Hospital.

During this one-month rotation, you will be expected to take buddy calls with plastic surgery residents:

-4 weekday calls between the hours of 5:00 PM and 7:00 AM and between the days of Monday night and Thursday night

-1 Sunday night call between the hours of 1:00 PM on Sunday and 7:00 AM on Monday

-1 Saturday call starting at 7:00AM on Saturday and ending at 1:00 PM on Sunday

On the Wednesday night at the conclusion of your rotation, you will be expected to give a case presentation approximately 15 minutes in length (10 minutes for presentation, 5 minutes for questions) for a patient that you were involved with during your time on service. This will allow you to demonstrate your understanding of the case, the surgical techniques employed, and the outcomes achieved.

For more information, please contact Alyssa Reese 5859436010.
