

Issue Overview

When Build FA Term is run for census, students with no enrollment activity for the term have the FA Load value set to N while Enrollment Intensity remains at its original value. The expectation is that students with no enrollment activity for the term have FA Load set to N and Enrollment Intensity set to zero.

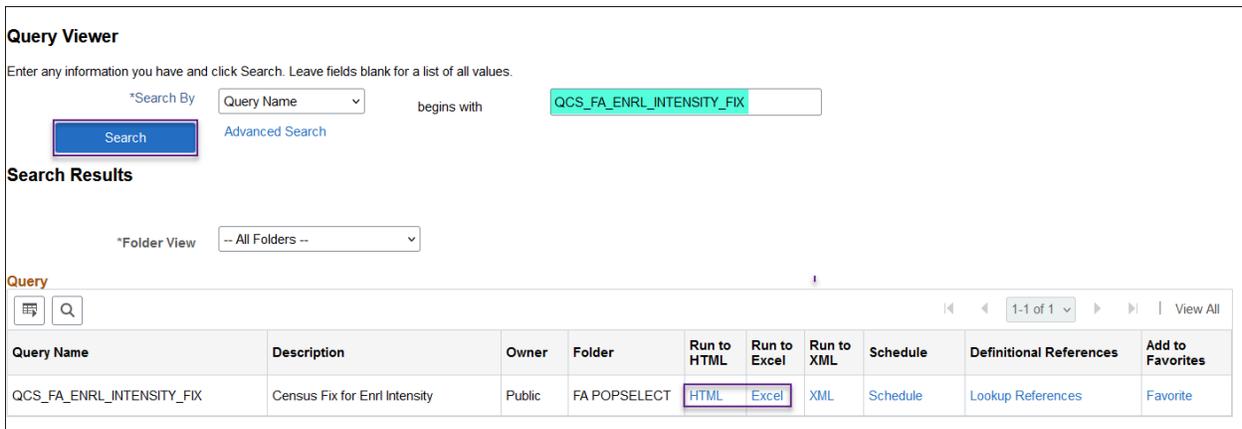

The resolution to this issue is to be determined by Oracle. FA Support has developed the process below as a workaround. This pop update is intended to be run after the Census Jobset, to set the Enrollment Intensity value to zero for students with no enrollment activity for the term.

Enrollment Intensity Query

Navigation: Reporting Tools > Query > Query Viewer

The query used in the step below can be run in Query Viewer to generate a list of students selected for the pop update. This list may be used later to review student FA Term records.

- Enter the following query name: **QCS_FA_ENRL_INTENSITY_FIX**
- Select **Search**
- From the Search Results select **HTML** or **Excel**

The screenshot shows the Query Viewer interface. At the top, there is a search bar with the text "Enter any information you have and click Search. Leave fields blank for a list of all values." Below this, the search criteria are set to "Query Name" and "begins with" with the value "QCS_FA_ENRL_INTENSITY_FIX". A "Search" button is highlighted. Below the search bar, there is a "Search Results" section with a "Folder View" dropdown set to "-- All Folders --". Below that, there is a "Query" section with a table of search results. The table has columns for Query Name, Description, Owner, Folder, Run to HTML, Run to Excel, Run to XML, Schedule, Definitional References, and Add to Favorites. The first row shows the query "QCS_FA_ENRL_INTENSITY_FIX" with a description of "Census Fix for Enrl Intensity", owner "Public", folder "FA POPSELECT", and options for "Run to HTML" (HTML) and "Run to Excel" (Excel) highlighted with a red box.

Query Name	Description	Owner	Folder	Run to HTML	Run to Excel	Run to XML	Schedule	Definitional References	Add to Favorites
QCS_FA_ENRL_INTENSITY_FIX	Census Fix for Enrl Intensity	Public	FA POPSELECT	HTML	Excel	XML	Schedule	Lookup References	Favorite

Enter the following fields

- **Institution**
- **Aid Year**
- **Term**

QCS_FA_ENRL_INTENSITY_FIX - Census Fix for Enrl Intensity

*Institution WA250
 *Aid Yr 2025
 *Term 2247

Enrollment Intensity Pop Update

Navigation: Set Up SACR > System Administration > Utilities > Population Update > Population Update Process

This process updates the Enrollment Intensity Percent field on FA Term to 0.00 when FA Load flips to N during Census Jobset.

Enter a New or Existing Run Control ID

- Choose **STDNT_FA_TERM** – Student FA Term from the Record (Table) Name from the drop down menu
- Select the **Report Error Messages** radio button
- Choose **PS Query** from the Selection Tool dropdown menu
- Use look up to find the Query Name: **QCS_FA_ENRL_INTENSITY_FIX**
- Click **Edit Prompts** and enter the following:
 - Institution
 - Aid Year
 - Term
- For **Field Name** select **Enrollment Intensity Percent**
- For **Field Value** enter **0.00**
- Select **Preview Selection Results** and review student list
- Select **Run**

Review Pop Update Results

Navigation: Financial Aid > Financial Aid Term > Maintain Student FA Term

The students processed in the pop update will have the *Enrollment Intensity Percent* field populated with a value of zero and the override checkbox for *Enrollment Intensity Percent* is enabled.
