

# Planning Board Meeting!

## RE: Plasma Donation Facility At 850 North Main Street

It will be easy to halt construction of CSL Plasma's new facility, and get it moved to another location... We just have to show up!

Who: You, your kids, your neighbors, business owners, anyone with something to say about the city fast-tracking plans to put a Plasma Collection Facility at 850 North Main Street.

What: Debate on community issues, especially about effects a Paid Plasma Collection Business could have on your community! - Followed by an up-or-down vote by the city planning board.

When: Tuesday, November 16th, 4:30pm

Where: City Hall, 6th Floor

Why: To pressure the board and administrators to halt construction of a Plasma Collection Facility at 850 N. Main, and put it somewhere else

Note: You've been told this is a done deal, and construction is a go... You've been purposely misinformed... We succeeded in getting the Planning Board to delay the process... It wasn't that hard... It won't be hard to get a NO-VOTE, as long as we turn out to these meetings in LARGE numbers!
