20. निबंध लेखन - महात्मा गांधी

Round - 3

प्रश्न उत्तराणि

1. भारतवर्षे कति ऋतवः सन्ति ?
2. ऋतुराजः कः अस्ति ?
3. वसन्तसमये आकाशः कथम् भवति ?
4. सा महिला का अस्ति ?
5. नौकाचालनम् कस्य आजीविका अस्ति ?
6. रामस्य भ्रातः कः अस्ति ?

हिंदी अनुवादं

7. भो नाविक ! अहं तस्मिन् तटे गन्तुम् इच्छामि।
8. अत्र अनेके हिंस्रकाः जन्तवः भवन्ति ।
9. वयं जनकस्य आज्ञया वनं गच्छामः ।
10. वसन्ते प्रकृतिः नवरूपेण शोभायमाना भवति।
11. वने वाटिकायाम् उद्याने च विविधवर्णानि पुष्पाणि प्रस्फुटन्ति ।
12. मानवे नवरक्तं सञ्चरति।
13. चत्वारि तस्य वर्धन्ते आयुर्विद्या यशोबलम्।
14. वृश्चिकस्य विषं पुच्छे सर्वाङ्गे दुर्जनस्य तत् ।
15. उदारस्य तृणं वित्तं शूरस्य मरणं तृणम्
16. जीवने सूक्तीनाम् महत्त्वं हिन्द्याम् लिखत।
17. उचितं विभक्तिवचनं च लिखत-
ऋतवः, वसन्ते
18. संबोधन कारक किसे कहते हैं ?
19. श्लोक लेखन - 1. अलसस्य कुतो विद्या अविद्यस्य कुतो धनम् ॥

अधनस्य कुतो मित्रं अमित्रस्य कुतः सुखम् ।।
2. हस्तस्य भूषणं दानं सत्यं कण्ठस्य भूषणम् ।
श्रोतस्य भूषणं शास्त्रम् भूषणैः किं प्रयोजनम् ।।
20. अवकाशाय प्राचार्यं प्रति पत्रम्।

Subject: Maths

Round 1

Ch 5

Ch 6

Ch 7

Q 1 . Convert into power notation.

a) 15,625

b) -2,197

Q 2. Simplify the following expressions and express a single power

a) $2^3 \times 2^4$

b) $3^6 \times 9^4$

Q 3. Simplifying the following and express as a single power

a) $2^4 \times 3^4$

b) $(-5^2)^{-2}$

Q 4. Simplify and express each of the following in exponential form

a) $(2^3)^6 \times 9^3 / 4^2 \times 27$

b) $35 \times 7^3 / 5^2 \times 343$

Q 5. Evaluate the following

a) $(-14)^4 \times 11^3 \times 6 / 7^3 \times 12^2 \times 121$

b) $7^0 \times 12^0 \times 17^0 / 57^0 + (45^0 \times 13^0)$

Q 6. If $a/b = (-7/9)^8 \div (-7/9)^6$, find the value of $(a/b)^2$.

Q 7. Express the following in the usual form.

a) 9.018×10^5

b) 3.14071×10^5

Q 8. Simplify the following

a) $12a + 2b^2 + 3a^3 + (-3a) + 17b^2 + 75a$

b) $23b + 127b^3 + 5b^2 + 13b - 7b^2 + 5b$

Q 9. Rohan spends Rs $(3a - 4b + 2c)$ on a book and Rs $(7a + 5b - c)$ on a bag. How much does he spend in all?

Q 10. Subtract the following expressions

a) $(9y^2 - 4y - 1)$ From $(-y^7 + 10y + 7)$

b) $(2a^3 - 3a^2 + a + 1)$ From $(2a^3 - 3a^2 + a)$

Q 11. Simplify the following

a) $(a - 4) - (a + 9) - (a - 3) + (a + 11)$

b) $4(2p - 3q - 9) - 2(3p - 5q)$

Q 12. What should be added to $4x^2 - 5xy + 9$ to get $-2x^2 + 3xy - 5$?

Q 13. If $p = 3$ and $q = -3$, find the value of:

a) $2p + q - 3pq$

b) $p^2q^2 + p^3 - q^3 + pa^2 + p^2q$

Q 14. Simplify the following expression and find its value when $x = -1$ and $y = 2$

$2x^2 - 3y + 3x^2 + 5y^2 + 5x - 7 - 7x + 2y$

Q15. Solve by the method of balancing and equation and write the steps you used to separate the variable

a) $x + 7 = 10$

b) $3x + 2 = 8$

Q16. Solve by the transposition method

a) $6(t - 2) = 18$

b) $2(x + 4) - 10 = 44$

Q 17. Soni's brother is eight years older than four fifth of her age if her brother's age is 32 years what is soni's age?

Q 18. Nina has 2 toffees less than 4 times the number of toffees Rena has. Find the number of toffees if Reena has, if Neena has 14.

Q19. Rahim bought two chocolates and give the shopkeeper a 100 rupee note The shopkeeper returned rupees 10. Find the price of each chocolate, if both have the same price.

Q 20. Shreya's mother is 40 years old . Her age is 10 years more than twice of shreya's present age finds Shreya's present age.

Round 2

Ch 8

Ch 12

Ch 13

Q 21. Sunita comes across a deal in a departmental store a box of 6 bottles of a drink for rupees 24 and a crate of 30 bottles of the same drink for rupees 105. Which is a better deal?

Q 22. Rahul and rupees 21,000 in 7 months.

How much does he earn in 12 months?

In how many months he will he earn 33,000?

Q 23. Solve the following-

a) 3:4 (convert into a percentage)

b) 28% (convert percentage to decimal)

c) 32% (express the following percentage as fraction in the simplest form)

d) 16% (express the following percentage as ratios)

Q 24. In a gram Panchayat election candidate A won with 220 votes where the number of voters was 1,000 in another such election candidate B won with 300 votes where the number of voters was 1300. Who won with greater majority?

Q25. Monica is drawing a monthly salary of rupees 45,000. if rupees 15,000 is spent every month on repayment of a loan what person of her salary is she spending on repayment? if 24% of the remaining salary is spent on food, find the expenditure on food.

Q 26. In town A the population increased from 2000 to 2400 in 2 years. In town B the population increased from 1800 to 2300 during the same period. In which town the percentage increase in population greater?

Q 27. Rishav bought a second hand bus for rupees 20,00,000. He replaced the engine for rupees 15,000 and repaint it for rupees 5,000 he then sold it at a price of rupees 25,00,000. Find his profit%.

Q 28. Rachit borrowed rupees 15,000 from his friend. He gave rupees 3000 at the rate of 15% per annum and the remaining amount at the rate of 18% per annum. How much interest did he pay in 4 years?

Q 29. The intestine on a certain sum of money after 4 years at the rate of 5% per annum was rupees 840 find the principal borrowed and the amount returned.

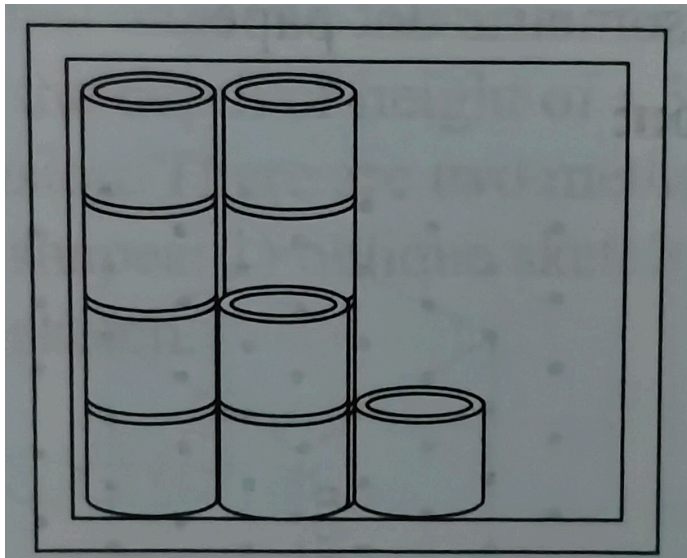

Q 30. Find the whole quantity,if:

a) 30% of it is 16500

b) 25% of it is 20

Q 31 . There are exactly 11 different necks of a cube. Draw at least 5 different nets of a cube.

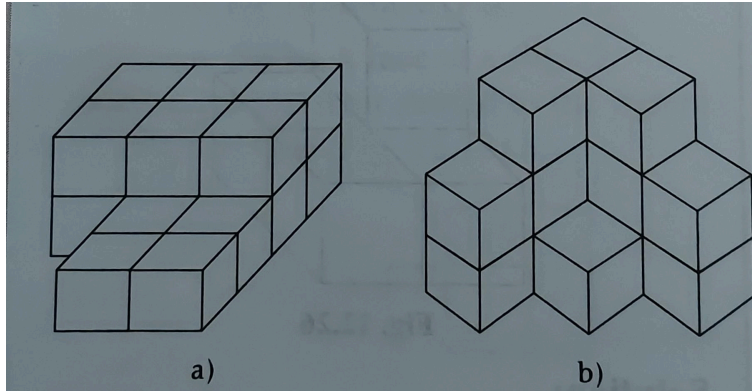

Q 32 . Look at the picture and find the:

a) Number of cans in the box.

b) Number of cans required to completely fill the box.

Q 33. Count The number of cubes in the following arrangement

Q 34. Drawing isometric sketch of a cube with the dimensions 3 unit $\times$ 1 unit $\times$ 2 units.

Q 35. What shape of shadow is obtained for the following 3D objects if the source of light is kept right above the object?

- a) A cold drink can
- b) A birthday cap
- c) A matchbox

Q 36. In given fig. if $AC = BD$, prove that $AB = CD$.

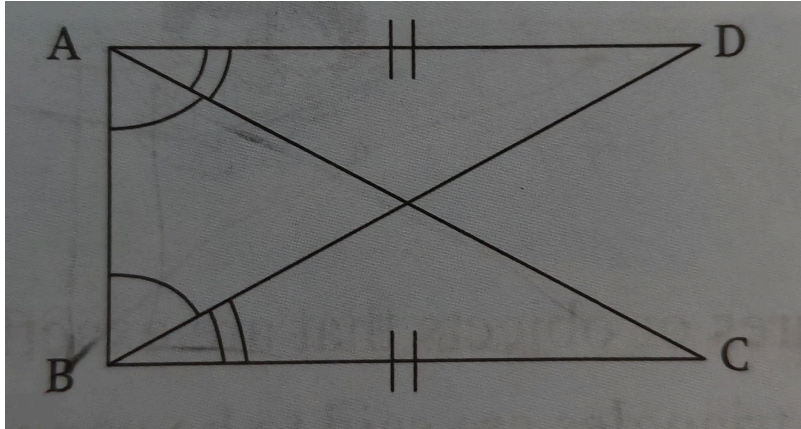

Q 37. Write the conditions for congruence of triangles.

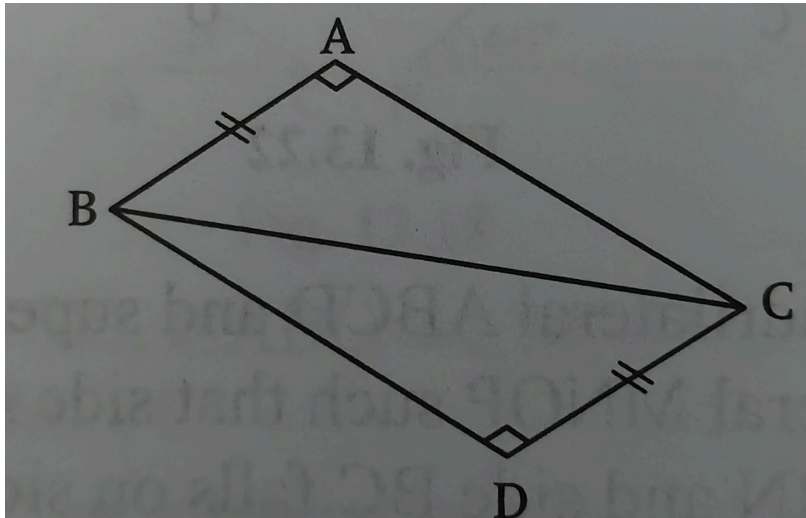

Explain one of them.

Q 38. In the fig the congruent parts are marked prove that

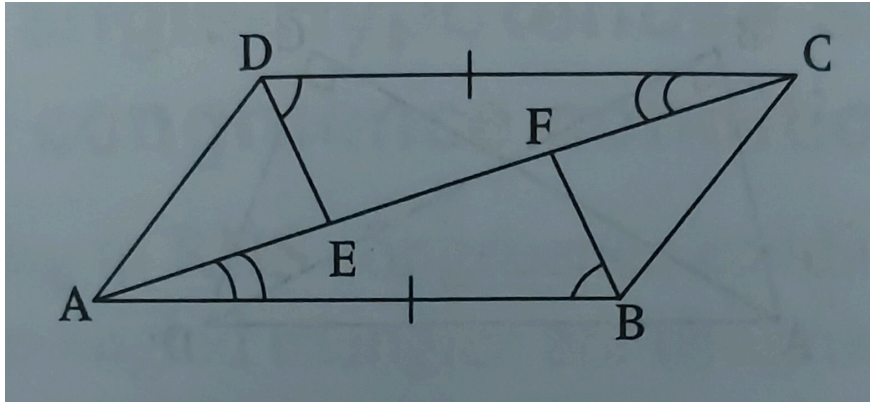

$$\triangle ABD = \triangle BAC$$

Q 39. In figure the congruent parts are marked prove that $\triangle BAC \cong \triangle CDB$

Q 40. In figure the congruent parts are marked prove that $\triangle CDE \cong \triangle ABF$ and $EC = AF$

Round 3

Ch 15

Ch 16

Q 41. Find the perimeter of each of the following

- A triangle of sides 3 cm, 4 cm and 5 cm**
- An equilateral triangle of side 9 cm**
- An isosceles triangle with equal side 8 cm each and third side 6 cm**

Q 42. A table cloth has dimensions 3 m by 120 cm it has a hexagon of side 1.5 m designed in the center Find the length of border required to be put all around the table cloth and the hexagon in the center also find the total cost of border if 1 m of border cost rupees 12

Q 43. A floor measuring 2 m by 1.5 m is to be covered with tiles measuring 25 cm by 25 cm Find the number of tiles required to cover the floor and the cost of the tiles at Rs. 420 per dozen

Q 44. The adjacent sides of a parallelogram are 12 cm and 8 cm Find the altitudes corresponding to these bases if area is 108 cm^2 .

Q 45. A rectangular field is 91 m long and 24 m wide. How many right triangular flower beds whose side containing the right angle measures 12 m and 13 m can be laid in this field?

Q 46. Find the radius of the circle whose area is (take $\pi = 3.14$)

a) 530.66 m^2

b) 706.5 cm^2

Q 47. A garden is 150 m long and 120 m wide there are two circular skating floors with radii equal to 35m and 42m in the garden Find the cost of covering the remaining portion of the garden with grass at the rate of rupees 1.25 per m^2

Q 48. A 6 meter wide path runs around the inside of a rectangular lawn whose length is 110 m and breadth is 80 m. Find the area of the path if the cost of laying gas in 1 m^2 lawn is Rs 7.50 Find the total cost of laying gas in the lawn.

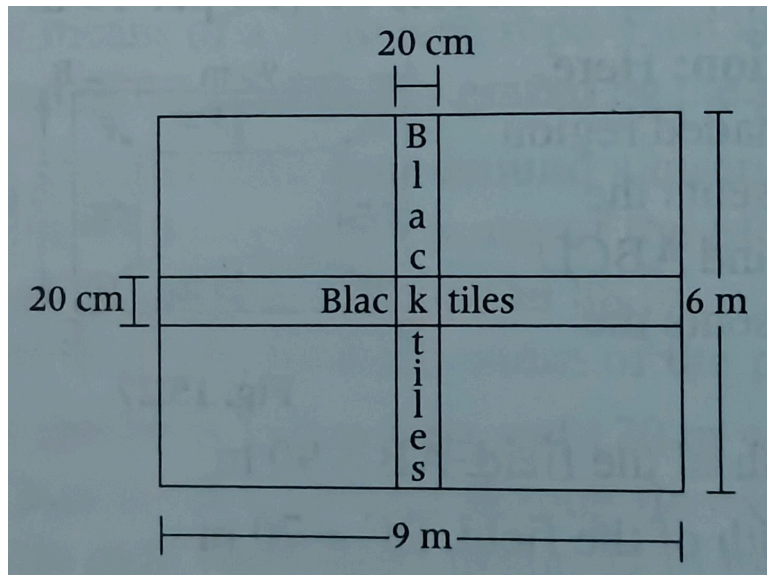

Q 49. Rectangular field is 112 m long and 100 m wide two roads each 3m wide are to be constructed at the center of this field one parallel to the length of the field and the other parallel to the breadth of the field find the:

a) Area of the two roads

b) Area of the part of the field not covered by the roads

c) Cost of constructing the roads at rupee 17 per m^2

Q 50. A rectangular floor of length 9 m and breadth 6 m has black tiles laid in the given pattern Find the number of tiles laid if each tiles has dimensions $40 \text{ cm} \times 10 \text{ cm}$

Q 51. The following data shows the salaries drawn (in rupees) per week by 15 employees of a retail store
1500, 2000, 1500, 1000, 2000, 1000, 1500, 3000, 1500, 1000,
1000, 2000, 1500, 2500, 1000.

Organized the data in a frequency distribution table and answer the following questions

What is the maximum salary drawn?

- What is the minimum salary drawn ?**
- Find the range of the data**
- Find the average salary drawn per week**

Q 52. The marks of 20 students in physics are given below

56, 32, 57, 74, 12, 45, 68, 87, 11, 34, 53, 23, 47, 24, 78, 37, 68,
79, 44, 67

Find the average marks

Divide the class into two groups on the basis of the class performance.

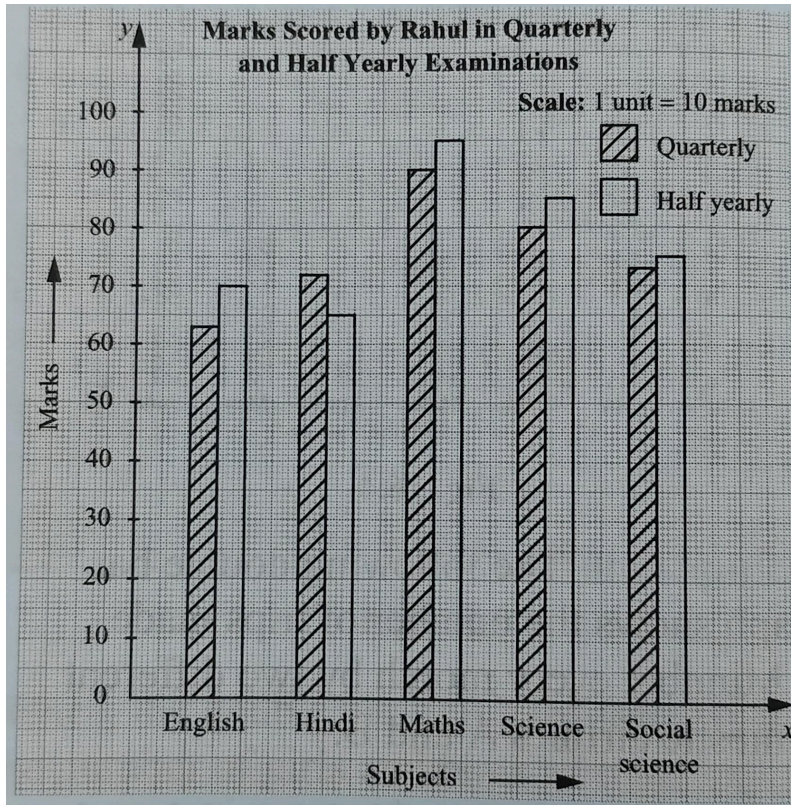

Q 53. The given data about the most preferred drink of 60 guests at a party

- a) Draw a bar graph for this data**
- b) Find the mode of the data. What does it tell us?**
- c) Name the two drinks which are preferred by the same number of guests**

Drink	Number of guests
Tea	20
Coffee	9
Milk	7
Juice	12
Cold drink	12

Q 54. The performance of Rahul in the quarterly and half early examinations is shown using the double bar graph Study the graph and answer the following question

- a) In which subject has Rahul improved his performance the most?**
- b) In which subject is improvement the least?**
- c) Has the performance gone down in any subject?**

Q 55. The following data shows the close watches and sunglasses in a store during 6 months draw a double bar graph for the given data and answer the questions that follow.

	January	February	March	April	May	June
Watches	500	450	750	250	350	100
Sunglasses	750	600	550	700	275	350

In which month was the difference in the sales of watches and sunglasses the maximum?

In which month was the ratio of sale of watches to sunglasses 3 : 4?

Q 56. The given table shows the marks obtained by Riya and Siya in their semester examination represent the given data

on the double bar graph and answer the questions that follows

	English	Hindi	Mathematics	Science	Social science
Riya	80	85	85	90	75
Siya	75	75	85	80	85

Who performed better in languages?

In which subject did Sia and Ria score equal marks

In which subject was Riya better than Siya?

Find the average marks scored by both the girls and hands compared their performance.

Q 57. Some events are listed below. State which of the following events are certain, impossible or can happen but not certain.

- a) Choosing a yellow marble from a jar containing 2 red, 3 blue and 4 green marbles.
- b) Landing on a number less than 8 on spinning a spinner numbered 1 to 7.
- c) Mathematics teacher of class VII B not turning up today.
- d) Thirteen months in a year.
- e) A month having at least 4 Sundays.
- f) Choosing a prime number from strips numbered from 1 to 10.
- g) Riya will grow a year older on her birthday.

Q 58. A basket contains 7 red balls, 3 green balls and 5 yellow balls. What is the probability of obtaining a red ball? If 2 blue balls are added to the basket and 3 red balls are painted blue, find the probability of obtaining a blue ball.

Q 59. Find the sample space of the following experiments.

A fair coin and a dice is rolled together.

Three coins are tossed at the same time.

Q 60 .Find the probability of getting a sum of 6 by rolling two fair dice.

Subject: Science

*CLASS – 7TH*_

_ *SCIENCE*_

* _ROUND - 1_ *

CHAPTER - 6 Respiration in organisms

Q.1 Why does blood play an important role in the process of respiration?

Q.2 Distinguish between photosynthesis and respiration .

Q.3 Compare the pores in insects with stomata in leaves of plants

Q.4 How is the breathing process of a frog different from that of its tadpole?

Q.5 Manish advises rekha not to sleep under the tree at night. Why does he give this advice ? Is it fine to sleep under a tree during daytime?

Q.6 Explain why the breathing rate increases during heavy exercises.

Q.7 Why should we breath through our nose and not through our mouth? Suggest some steps to keep the respiratory system healthy.

Q.8 Nitika is practising for an upcoming athletic championship. While running , ahe satdown and started crying because of pain in her legs. Why did nitika feel pain her legs while running ? What should she do for relief?

Q.9 How does anaerobic respiration of yeast benefit us? Can you think of one more way anaerobic respiration benefits us?

Q.10 When we exercise vigorously ,the breathing rate increases, and heart rate also increases . In this process , exhalation is also a very important part of exercise. Explain the importance of exhalation.

CHAPTER - 7 Transportation in Animals and Plants

Q.11 What is the importance of septum
In heart?

Q.12 What types of patients are put on a dialysis machine?

Q.13 Why does the heart beat faster during and after physical exercise?

Q.14 What happens to the person whose blood does not have enough platelets?

Q.15 Rahul noticed the gardener peelings off the bark from a neem tree. He stopped the gardener from doing so, thinking that it will affect transportation in plants. Do you think it is going to be harmful for the functioning of vascular tissues? Give reasons.

Q.16 A student measured his heart beat with the help of a stethoscope and pulse by placing the index finger on the left wrist for a minute . What relationship might have been observed by the students after getting their values?

Plants do not use all the water they absorb from the soil. Most of it is lost through transpiration .

Q.17 why do plants absorb so much water?

Q.18 How is this process helpful outside of the plant body?

Q.19 Human beings have a four chambered heart so that the mixing of oxygenated and deoxygenated blood can be prevented. Why is this separation necessary ?

Q.20 What are the factors which will favour the rapid transport of water in plants?

ROUND -2

CHAPTER - 8 Reproduction in plants

Q.1 Which special features makes it easy for a coconut fruit to float on water?

Q.2 Why is dispersal of seeds essential for plants?

Q.3 Pollen of a china rose flower gets deposited on the stigma of a lily flower. Does fertilisation take place ? Give a reason to support your answer.

Q.4 A plant bears unisexual flowers. It has two flowers, one male and one female on two different branches . Pollination between these flowers will fall under which category (a) self pollination or

(b) cross pollination ? Why?

Q.5 A teacher visited a vegetable farm with students. They made a table of the plants growing in that farm.

- (A) Carrot
- (B) Potato
- (C) Turnip
- (D) Cauliflower

The teacher pointed out a plant and said that its mode of reproduction is different from the other three plants. Which plant might have been pointed at by the teacher, and why!

Q.6 What happens when all the seeds of plants fall at the same place (below the plant) and grow there?

Q.7 Potato and sweet potato both are tuberous and grow underground . Why is then one said to be modified stem and other as modified root? Give two reasons in support of your answer.

Q.8 Wind pollinated flowers produce a large number of pollen grains. Give a reason.

Q.9 You are a farmer and want to grow new plants through vegetative propagation. How would you overcome the disadvantage of vegetative propagation to ensure higher yield of your crop?

Q.10 Why do some plants reproduce asexually?

CHAPTER - 09 Time and Motion

Q.11. The speed of a moving car is 72 km/h Calculate its speed in m/s.

Q.12 State the principle used for measuring time in watches and clocks.

Q.13 Rahul switches off a fan and the fan blades start to slow down. Is the motion of the fan periodic in this case ? Why /Why not?

Q.14 A train is moving with constant speed. It stops after some time when the brake is applied. How does the speed of train change? Is the motion during braking - uniform or non uniform ? Give a reason.

Q.15 When two objects are moving with same speed but in different directions , how will you determine which one is moving faster ? Draw a distance time graph to show their motion.

Q.16 You are going to mathura by car. You look at milestone that reads ' Mathura 4km away' at 4:00 pm .At 4:05pm you see a milestone that reads 'Mathura 1 km away 'what is the speed of your car in km/minute?

Q.17 A car moves at a speed of 20km/h for 15 minutes and then at a speed of 60km/h for the next 15 minutes. Calculate

The total distance covered by the car.

Q.18 Radhika travelled from lucknow to ghaziabad by car for a distance of 512 km. She started at 8 am from lucknow and drove at an uniform speed of 80km/hr. She took a halt after 140 km from 9am to 9:30 am and then drove at a speed of 100km /hr till the next 400 km Find out the total time taken to travel.

Q.19 During an experiment , object A covers a distance of 50m in 10s , while objects B covers the same distance in 20s .Find the ratio of the speed of object A to the speed of object B .Also , calculate the difference between their speeds.

Q.20 You are drawing water from a well. The speed at which you pull the bucket out is 0.5m/s .It taken 5 second to pull out the bucket .What is the length of the rope? {Assume that no part of the rope is hanging out when you start pulling it.}

ROUND -3

CHAPTER - 12 Forests: our lifeline

Q.1 Why is the forest dark inside?

Q.2 Forests support the economy of our country. Justify this statement

Q.3 Decomposers are known as the nutrient suppliers to plants. Why?

Q.4 You must have noticed old, dried leaves that fall to the ground. What do you think happens to these leaves in a few days?

Q.5 Why are forests called a self-sustained dynamic entity?

Q.6 How can the rights and traditional knowledge of indigenous people be better protected in forest conservation efforts? Analyse along with some examples.

Q.7 How does recycling paper contribute to the conservation of forests?

Q.8 A village is located near the highway. A large area between the highway and the village is covered with forest. People often say that the location of the forest is very important for the villagers (with reference to pollution level). Why do they say so?

Q.9 In a forest, the number of carnivores become more than the herbivores. Give two possible consequences of it.

Q.10 How can we promote better education and awareness about the importance of forests among the general public, particularly young students? Suggest some effective ways for schools and parents.

CHAPTER - 13 waste water story

- Q.11 After multiple filtration, water collected from a sewer became clear is this water safe for drinking? Give a reason.
- Q.12 Why are open drains called reservoirs of harmful germs causing health diseases?
- Q.13 Why is the discharge of untreated sewage into water bodies not desirable?
- Q.14 How does the discharge of wastewater pose a potential threat to aquatic life?
- Q.15 The modern household RO-water filters generate a lot of wastewater after filtration in several urban and rural homes. What can be a possible utility of this water that has a higher concentration of mineral salts and trace impurities? Give any three uses
- Q.16 Wastewater pipe networks beneath cities are like underground rivers of wastewater. Justify this statement
- Q.17 A group of students make a filtration system using layers of fine sand, coarse sand and gravel and test it in the lab, using 500ml of wastewater sample.
In order to upscale their design, they add a settling tank after the filter.
- (a) What should they add before their filtration system? Give a reason.
- (b) Do you think the water collected in the beaker is safe for drinking? Give a reason for your answer
- (c) How can the water at the end of wastewater treatment be made fit for drinking?
- Q.18. Sameer finds that the drain in the basin of his kitchen has a cover with small holes.
- (a) What is the role of this cover in the basin?
- (b) How does it help in treating wastewater effectively?
- (c) What will happen if you pour oil in the sink? Give any two impacts.
- Q.19 The municipal corporation of your city is planning to build a new wastewater treatment plant. What are the factors that need to be considered while selecting the location for the plants?
- Q.20 'Kitchen waste in the form of small food particles, used tea leaves and grease is suggested to be disposed along with other organic waste such as fruit peels in the trash. However, most households end up disposing oils, tea leaves and small food particles down the kitchen sink, for convenience.'
Suggest the best solution to get rid of these practices to benefit the environment

Subject: SSc

Pre- Annual Exam

Subject - SSc

_____QB(Round 1)_____

- 1. What is agricultural pattern and what are the factors that determine the Indian agricultural pattern?**
- 2. What do you understand by the term “ratoon cropping”?**
- 3. How is organic farming practised?**
- 4. Rice is grown mainly in hot and humid regions. Justify this statement by citing the requirements for rice cultivation.**
- 5. Why is there a need to discourage shifting cultivation?**
- 6. What is subsistence farming? List and describe the types of subsistence farming.**
- 7. Give a brief account of the geographical factors necessary for sugarcane cultivation. Also mention the sugarcane producing areas in**
 - (a) India**
 - (b) the world.**
- 8. Why is jute production concentrated in the Ganga–Brahmaputra delta?**
- 9. How did the Green Revolution in India address the challenges of low agricultural productivity and vulnerability to drought?**
- 10. Why is it a good idea for farmers to grow different types of crops?**

11. How has technology changed farming in India? Share your thoughts.

12. Share your understanding of the main economic activities of the people during Krishnadeva Raya's reign as compared to Akbar's reign.

13. Do you find any similarities between Tenali Rama in Krishnadeva Raya's court and Birbal in Akbar's court?

14. Write a short note on landholding under Krishnadeva Raya.

15. Write a short note on landholding under Akbar.

16. Briefly discuss one major economic activity that was crucial for the prosperity of both Krishnadeva Raya's empire and Akbar's empire.

17. Identify one key feature of the social structure that was unique to Akbar's empire.

18. Outline one key difference in the social hierarchy between Krishnadeva Raya's Vijayanagara Empire and Akbar's Mughal Empire.

19. Describe the Early Medieval and Late Medieval periods in India, highlighting key rulers and important events.

20. Compare the state policies of Krishnadeva Raya and Akbar. Which ruler implemented more effective policies for the overall well-being of their empire and people?

_____QB(Round 2)_____

- 1. What is a social-religious movement?**
- 2. Why were the common people attracted towards the Sufi and Bhakti movements?**
- 3. Name five popular silsilahs.**
- 4. Who were the Alvars and Nayanars?**
- 5. What do you understand by the term “Khanqah”?**
- 6. Write about one legend associated with Kabir.**
- 7. What made people turn to Buddhism, Jainism, and later the Bhakti and Sufi movements?**
- 8. Compare the Bhakti ideas of Ramanuja with those of Shankaracharya.**
- 9. What is the importance of the Chishti silsilah in the Sufi movement?**

- 10. What did Kabir want to convey through his teachings?**
- 11. What were the teachings of the Bhakti and Sufi saints? To what extent were they similar? Explain with examples.**
- 12. What are the major teachings of Basavanna about human dignity?**
- 13. Why did Guru Nanak promote equality?**
- 14. List five major religious ideas that emerged during the medieval period.**
- 15. Write the main teachings of Islam.**
- 16. What are the teachings of Basavanna about ahimsa?**
- 17. Explain the teachings of Guru Nanak about equality.**
- 18. Describe the historical context of the medieval era in India and the major religious ideas that emerged during that time.**
- 19. Compare the thoughts of Lingayatism and Tantra.**
- 20. Differentiate between the teachings of Basavanna and Guru Nanak. What are the similarities and differences between the two?**

_____QB(Round 3)_____

- 1. What are the three main soil types in the eastern part of South Africa?**
- 2. How fertile are most of South Africa's soils and which specific region has fertile soils in South Africa?**
- 3. Why are South Africa's mangrove forests classified as critically endangered?**
- 4. Why are rivers, such as the Orange River, important to South Africa?**
- 5. Suggest two reasons why it is important to conserve the coastal areas of South Africa.**
- 6. List and explain the physical features of South Africa.**
- 7. Describe the climatic conditions of South Africa. How do different climatic conditions affect the country's overall climate patterns?**
- 8. Analyse the challenges faced by the inhabitants (human and wildlife) of the Kalahari Desert.**
- 9. Evaluate the role of forests in South Africa's ecological diversity and landscapes, considering different types of forests and potential human impacts on them.**

- 10. What are the conservation challenges and opportunities in different regions of South Africa, including forests, wetlands, and deserts?**
- 11. List the characteristic features of apartheid.**
- 12. Briefly discuss the society of South Africa.**
- 13. Explain the significance of mining activities in the South African economy.**
- 14. Enumerate the importance of trade in South Africa and name one significant trade partner.**
- 15. Analyse the impact of apartheid on the social structure of South Africa.**
- 16. Analyse the impact of the tourism industry on South Africa's economy and local communities.**
- 17. Evaluate the role of the African National Congress (ANC) in the anti-apartheid movement.**
- 18. Create a chart comparing the different minerals and resources mined in South Africa and their uses in various industries. How do these resources contribute to the country's economic development?**
- 19. How does discrimination in society give birth to tension in a country? Explain in the context of South Africa.**

20. Picture of two leaders are given. They played significant roles in protecting their country. Identify them and explain how they worked to bring social change.
