

Summer / Winter Assignment

Honors United States History: 2025-2026 Pre-Course Assignment

***This assignment is required of ALL students taking Honors United States History, whether you are enrolled in the course for the fall or spring.**

Course reading:

Students will be required to read an outside reading throughout the semester. At this point, you do not have to complete any assignment for this prior to the course other than obtaining a copy of the book. We will be reading individual chapters as we progress throughout the course. You will complete assessments as we move throughout the course on these readings, but will begin this in the opening weeks of the course.

Book: "10 Days that unexpectedly changed America" by Steven M. Gillon
