ASU School of Life Sciences
Arizona State University

Academic Record Form

- This form asks you to provide information on the coursework that you have completed and are currently taking. While submission of official transcripts is also required, this form allows you to group your courses to show the strengths of your preparation for the research and course of study you propose to undertake as a graduate student. Since every school handles credit hours differently, do not stress if your coursework information does not fit perfectly into the sections listed or if you have small pieces of information missing.
- Please **make a copy of this form (do NOT request access to edit)** to complete, then upload the form to the ASU Graduate Admissions Application website (**File > Make a copy**).

NOTE: Quarter Hours x 2/3 = Semester Hours
