

WOODSTOCK ELEMENTARY SCHOOL

MORNING DROP OFF PROCEDURES

Supervision for students at WES begins at 7:30am. K-6 students may be dropped off anytime between 7:30-7:55. There is very limited parking in the area in front of the school, so arriving earlier can save some hassle as drop off tends to get busy between 7:45-8:05.

The spaces in the block in front of the school are a pick-up/drop-off zone ONLY. *In the interest of the safety and well being of all of our children,* please do not leave your vehicle unattended during the drop off and pick up times. Also, please do not idle your vehicle in front of the school as the exhaust is pulled into the school through our air handler systems and also flows onto the playground and school entrance. Please do NOT let your child exit the vehicle in traffic. You must be pulled into the drop off zone or parked before children exit your vehicle. This year, we will have staff out on the curb to greet your child whenever possible to help with safety in the drop off zone.

If a driver needs to leave the vehicle during drop off and pick, you may park on Cross Street, across the street on South Street (heading North in front of the Inn), on the Green, or down towards Vail Field. Please be aware of all posted areas.

We know parking is limited and can be frustrating. Please help us keep the spaces in front of the school available for quick drop off and pickup.
