Sacramento and Elk Grove Students Win Prizes in C-SPAN's National Documentary Competition

Students explore issues most important to them and their communities in messages to the president of the United States

Climate, education policies, and health care among top topics addressed

WASHINGTON (March 12, 2025) — Today C-SPAN announced that students in Sacramento and Elk Grove, California are 2025 winners in C-SPAN's 21st annual StudentCam competition.

Tanaya Safi, a student at Inderkum High School in Sacramento, is a third-prize winner and will receive \$750 for the documentary, "Are EVs Truly Green?"

Adi Parekh, Owen Provencher and Matthew Fields, students at Inderkum High School, are third-prize winners and will receive \$750 for the documentary, "America's Infrastructure Collapse."

Kiah Safi, Mihir Ratilal and Mira Prasad, students at Natomas Charter School in Sacramento, are third-prize winners and will receive \$750 for the documentary, "Affordable Housing: The Key To Success."

Athena Chen, Valeria Buendia and Pia Manez, students at Franklin High School in Elk Grove, are honorable mention prize winners and will receive \$250 for the documentary, "A Better Healthcare Calls for A Better America."

C-SPAN also recognizes educators Neil Landers at Inderkum High School, Gabriel Lang at Natomas Charter School, and Brad Clark at Franklin High School, who served as advisers in the StudentCam competition.

C-SPAN, in cooperation with its cable and satellite television partners, asked middle and high school students to address the theme — **"Your Message to the President: What issue is most important to you or your community?"**

Now in its 21st year, this project-based learning experience asked students to explore and analyze matters of personal, local or national importance. In response, C-SPAN received over 1,700 entries and nearly 3,500 students participated from 42 states and Washington, D.C. The most popular topics addressed were:

- Climate, Environment, and Land Use (11%)
- K-12 Education Policies and the Cost of College (10%)
- Health Care and Mental Health (10%)

- Gun Violence, School Safety, and Firearm Policies (9%)
- Inflation, Taxes, Government Spending, and the Economy (9%)

“Congratulations to all of the incredibly talented young students who won awards in this year’s competition! Through in-depth research and interviews with an array of topical and technical experts, you have crafted impactful short stories that capture issues of wide public interest and importance,” said C-SPAN’s Director of Education Relations Craig McAndrew. “Your documentaries set a very high bar for future StudentCam filmmakers, and you should be proud knowing your work will inspire your peers and foster thoughtful consideration from all audiences. We can’t wait to see what you do next!”

C-SPAN is funded by America’s cable and satellite television companies as a commercial free public service. In Sacramento and Elk Grove, C-SPAN is available through Comcast, our local partner in StudentCam.

In addition to the grand-prize and first-prize winners, C-SPAN is awarding 16 second prizes, 32 third prizes and 97 honorable mention prizes. These winning videos will receive cash awards of \$1,500, \$750 and \$250, respectively. The StudentCam competition has awarded over \$1.6 million in prizes since 2004.

High school students competed on a regional level, with the United States divided into three regions: East, Central and West. Middle school students were judged on a national basis. The grand-prize winner was selected nationally among all regions and grade levels.

The 150 winning videos can be viewed at studentcam.org and may be used in a broadcast with attribution to C-SPAN. To schedule an interview with one or more of the winning students, please contact Pam McGorry at pmcgorry@c-span.org.

The annual StudentCam competition is funded by the C-SPAN Education Foundation. Videos were evaluated by a panel of educators and C-SPAN representatives based on the thoughtful examination of the competition’s theme, quality of expression, inclusion of varying sides of the documentary’s topic, and effective incorporation of C-SPAN programming.
