

WiFi instructions provided by Chris McLaughlin:

How to set up KP WIFI on iPhone:

2 options for non-guest networks

1. Click on settings
2. then WIFI
3. then Other...
4. Change security to either WPA2 Enterprise
5. Type in the Name:
 1. "53cur3802WP2" (they are getting rid of this one in 2018)
 2. "Kaiser" (this is a new option in 2018, we don't know how long it will last)
6. Click Join
7. Type in your side computer login information (NUID, Password)
8. Click Trust if prompted

Guest option

If "53cur3802WP2" and "Kaiser" are no longer available, then use "Kaiser Guest"
