NP Introduction

What is NP?

Nyanko Point is a new mechanism that's introduced at The Battle Cats at v8.0. The NP can be used to buy/upgrade ability and stats for cat unit.

Where to get NP?

As for now, you can only get NP by selling cat unit.

1. Normal and Special sells 1NP
2. Rare sells 5NP
3. Super Rare sells 15NP
4. Can Can CatUber Rare sells 50NP
5. Legend Rare sells 150NP

The maximum NP you can hold is 9999NP

How to Unlock NP system?

Clear Into the Future chapter 3

What is the Requirement to Enhance Cat Unit?

You must unlock their third form. Also take note that not all unit can be enhanced. PONOS will add more later on upcoming updates.

What can we upgrade with NP?

1. Improves old abilities. Example: Catasaurus can increase critical rate. Or GE Megidora has higher chance to KB after enhancement.
2. Unlock new ability. Example: GE Megidora gains shockwave attack or Cancan gets Double Bounty perk.
3. Unlock new target. Example: Cataur has Zombie target and Sodom has Relic target.
4. Improve stats. This consist of: Damage Up, Health Up, Speed Up, KB number Up, Cost Down, and Cooldown Down.

Several note:

1. One Cat can only upgrade 5 perks. And these upgrades are fixed. So you can't just put whatever perk you want
2. The enhancement is only applied to third form. ~~#iperiticalshockwavekasajize~~
