 - 6.1. Widget in the catalog
 - 6.2. Widget on the product page
 - 6.3. Widget on the shopping cart page
 - 6.4. Payment for an order using "Podeli"

1. Overview

The “**Podeli**” addon integrates the captcha service into your store to protect your site from bots.

1.1 Support

This add-on is developed and published by eCom Labs, a CS-Cart developer. If you need help to install, set-up or customize it, please contact us via Helpdesk (helpdesk@ecom-labs.com).

1.2 Compatibility

The add-on is compatible with CS-Cart и Multi-Vendor **4.5.x — 4.18.x**.

1.3 Buy now

2. Installing the add-on

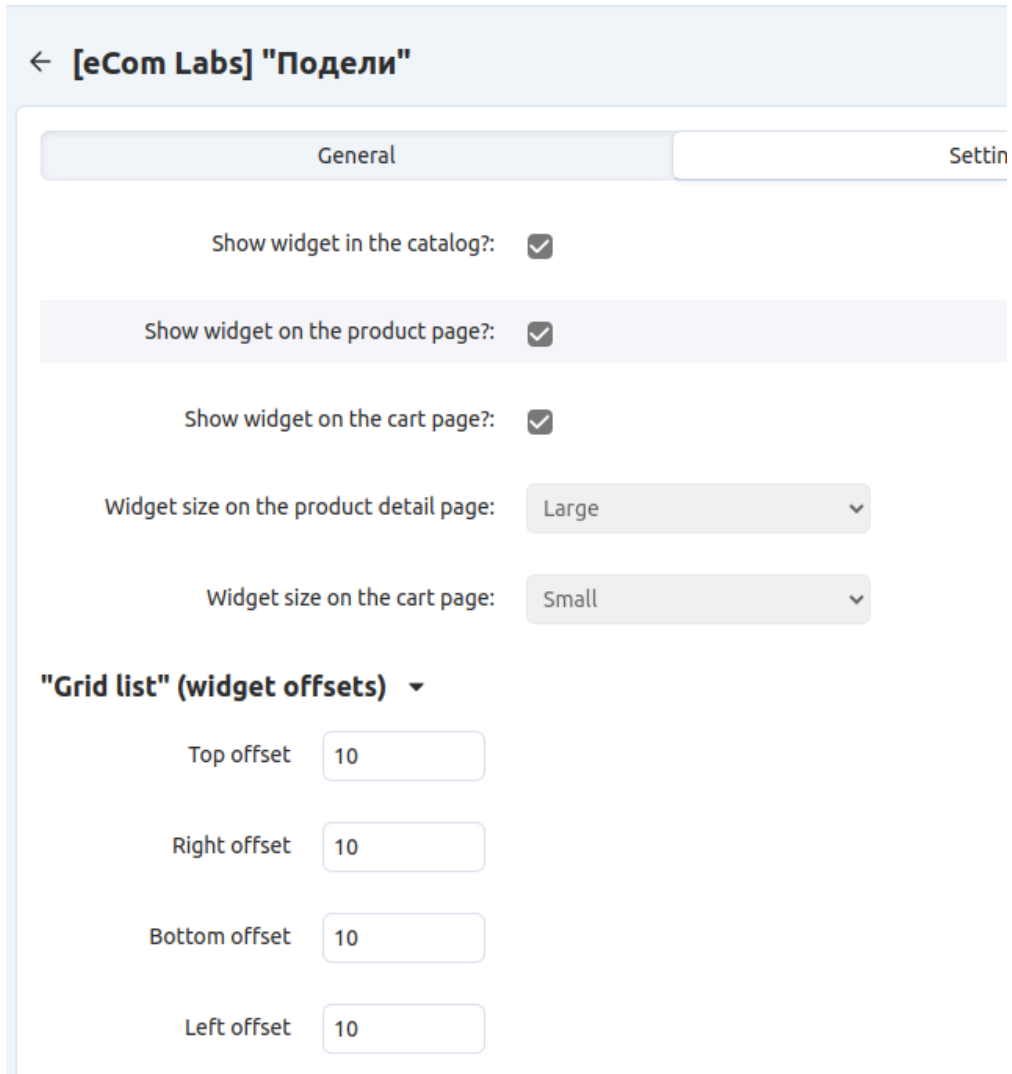

The installation package will be available for download on the Order detail page.

1. Log in the administration panel and go to the **Add-ons -> Manage add-ons** page
2. Use the **Upload & install add-on** button on the top of the page to install the add-on
3. Make sure that the status of the add-on is **Active** after the installation is finished

If you have any problems with add-on installation or turning it on, please contact us:

helpdesk@ecom-labs.com

Show the widget in the catalog - check the box that in the catalog or on the product grid, after searching on the site, the “Podeli” widget was shown under each product. See section 6.1. how it looks on the storefront.

Show the widget on the product page - turn on the check mark to show the widget on the product page. See section 6.2. how it looks on the storefront.

Show widget on the cart page - turn on the check mark to show the widget on the cart page. How it looks on the storefront, see paragraph 6.3.

Widget size on the detailed product page - there are two options, reduced or increased. Try both options and choose the appropriate one.

Widget size on the cart page - there are two options, reduced or increased. Try both options and choose the appropriate one.

Widget margins on the product grid - if the widget sticks strongly to neighboring elements, then set the margins (integers only). This way the widget can be “pushed back” from the adjacent elements of the product card on the grid.

4. Getting as username and password from “Podeli”

To get a username and password to connect to the Podeli API, you need to sign a contract with Podeli for the provision of services. After that, you will be given a username and password, which you will need to enter into the payment method settings in clause 5. You can start signing the contract using the following link: <https://podeli.ru/business>

5. Setting up a payment method

The screenshot shows a configuration window titled "Podeli" with three tabs: "General", "Configure", and "Storefronts". The "General" tab is active. It contains the following fields and options:

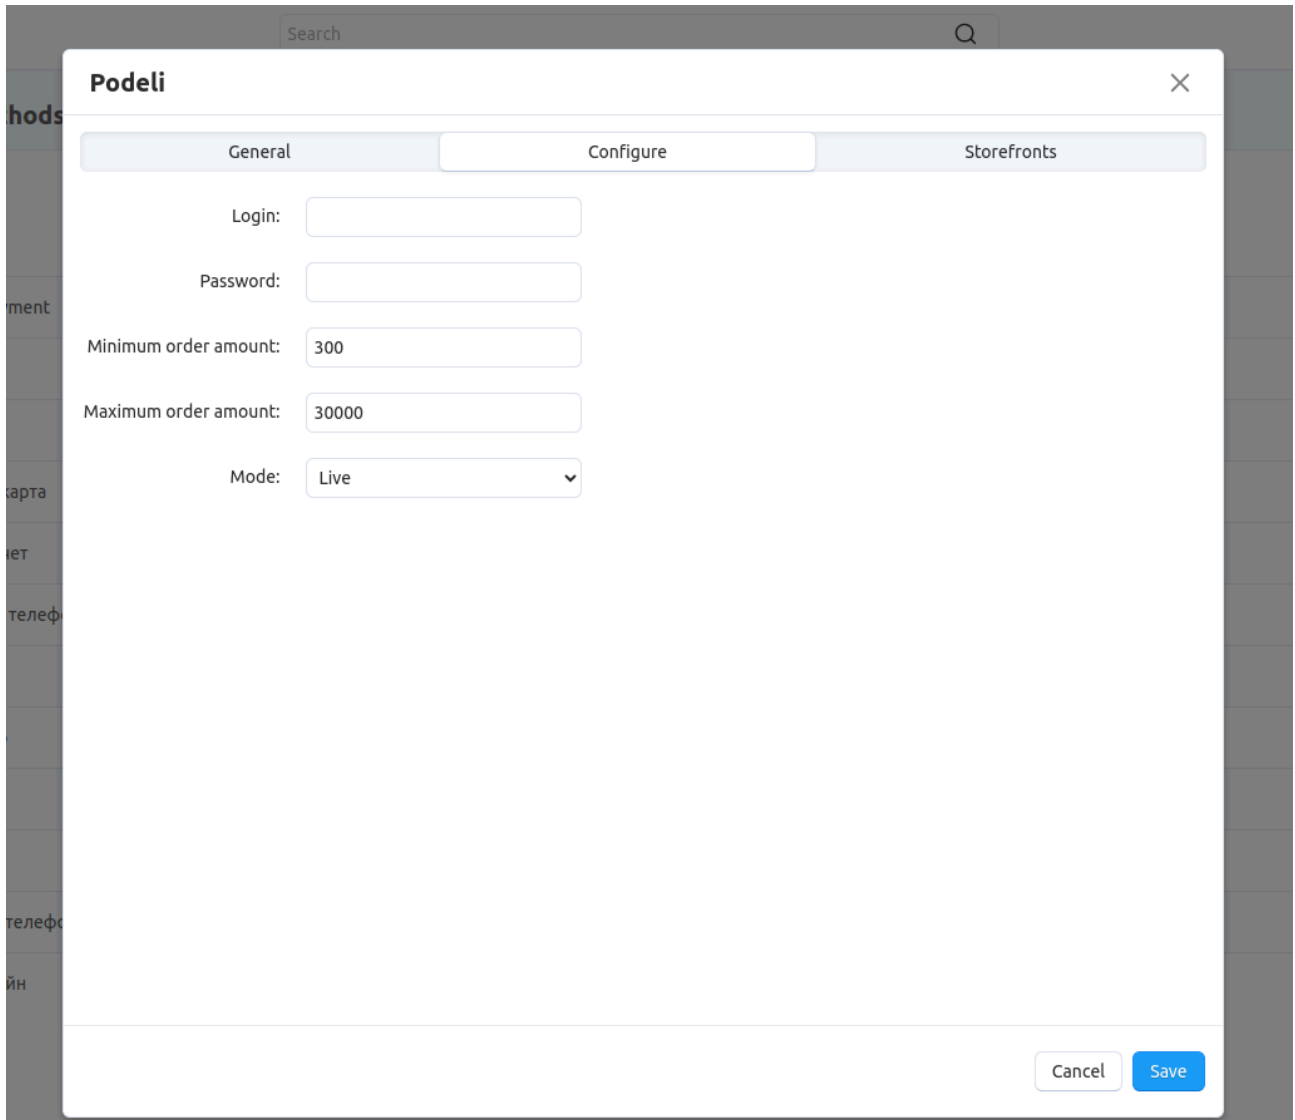

- Processor:** A dropdown menu with "Подели" selected.
- Name:** A text input field containing "Podeli".
- Storefront:** A dropdown menu with "CS-Cart" selected.
- Icon:** A square image placeholder showing the word "ПОДЕЛИ" in red Cyrillic letters. To its right, there are buttons for "Local", "Server", and "URL", and a checkbox labeled "I'm uploading a HiDPI image." with a help icon.
- Description:** A text input field.
- Payment instructions:** A rich text editor with a toolbar containing icons for bold, italic, underline, link, unlink, list, and image.
- User groups:** A row of checkboxes for "All" (checked), "Guest", "Registered user", "Вафля", and "Печенье".

At the bottom right of the window are "Cancel" and "Save" buttons.

Go to “Payment Methods” and create a new payment method. In the role of the processor, type in the search bar “Podeli” and the appropriate payment processor will be found. Select

it. Optionally, you can upload a picture of the payment method. You can request the Podeli logo from the Podeli support service.

Then create a payment method, open it again and go to the “Configure” tab

Podeli

General Configure Storefronts

Login:

Password:

Minimum order amount:

Maximum order amount:

Mode:

Cancel Save

Enter the username and password that you were given in the “Podeli” in the appropriate fields. Specify the minimum and maximum order amounts, but keep in mind that the minimum order amount cannot be less than 300 rubles, and the maximum - no more than 30,000 rubles. In this range, you can freely set the necessary limits.

Set the operating mode to “Test”. After making a successful payment with the test data, it will be possible to switch to the “Live” mode. The test data for the test mode can be found at the following link: <https://docs.podeli.ru/Testing.html>
