## Why This Works (Even If You Have a Small Channel)

You don't need to go viral. You need to get strategic.

In fact, YouTube doesn't want you to hustle! They just want you to be CLEAR.

When the algorithm knows who your videos are for, it sends you the right viewers - your future clients.

Just 5-8 smart videos can activate YouTube's recommendation engine and bring you leads 24/7.

Most entrepreneurs never hit that tipping point.

They post random videos, follow generic advice, and wonder why their channel doesn't grow.

Let's fix that.

Did you know that...

---

## Your Next 8 YouTube Videos Could Be the Reason the Algorithm Finally Works for You

What if the next 8 videos you publish were the tipping point? What if they trained YouTube to recommend your channel to the right people - the exact clients you want 24/7?

I call them your *Magnetic 8*, and it's the closest thing to a shortcut there is on YouTube for entrepreneurs.

They're the shortcut to algorithm traction, and the foundation of a high-leverage YouTube strategy that grows your audience, authority, and leads.

But here's the truth: most entrepreneurs never create them. 😞

They get stuck wondering what to say, how to say it, or whether they're even making the right videos.

So I decided to fix that.

## Introducing: The Magnetic 8 (Done-For-You)

If you want to jumpstart your YouTube channel strategically without spending hours on research or scripting, this is for you.

Here's how we'll do this:

1. **Personal Interview**

I'll interview you about your business and your ideal clients so we know who we are training the algorithm to reach

2. **Audience Research Done for You**

I'll research your market and pinpoint the questions, struggles, and search behavior of your perfect-fit viewers, so we build your Magnetic 8 around *what they're already looking for*.

3. **Your 8 Binge-Worthy Video Topics**

I'll hand-select 8 bottom-of-funnel, algorithm-training topics designed to attract, engage, and convert your dream clients from viewers to leads.

4. **Click-Worthy Titles and Thumbnails**

You'll get titles designed for clicks (without clickbait), plus thumbnail ideas that stop the scroll and invite curiosity.

5. **Psychology-Driven Video Outlines**

I'll write your full outlines, including hooks, viewer retention cues, lead generation angles, and belief-shifting storytelling - so all you have to do is record.

---

# Videos You'll Be Excited To Release

My goal is to equip you with video ideas, titles, and outlines you'll love so much you can't wait to release them!

I'm also including this bonus during this round of signups:

6. **Bonus #1: Lifetime Access to the YouTube Entrepreneur System:** When someone in my audience decides they want to grow on YouTube, they buy our full YouTube program, but I'll include it free for you. You'll get lifetime access starting now in case you want to start going through it. *NOTE: This program is being completely redone and you'll get access to the updated version too!*
  7. **Bonus #2: 1:1 Feedback on Your First Video**  
Once your first video is done, I'll personally review it and give detailed feedback to make sure you're 100% on track before you continue.

## What Most People Get Wrong About YouTube

Most entrepreneurs treat YouTube like a lottery.

They post what they think might work, try to go viral, and hope the algorithm magically picks them.

But here's what actually works:

- **Your channel needs to be clear and bingeable.** Random topics confuse the algorithm (and your audience).
- **You don't need fancy editing.** Videos that connect emotionally and solve a real problem outperform slick but shallow content - and that happens in writing the titles, thumbnails and outlines.
- **Lead magnets don't work like they used to.** Viewers have short attention spans and often don't know you yet. That's why we use fast-pitch, low-friction "Need Magnets" in your videos instead.
- **The algorithm doesn't need months - it needs direction.** With just 5-8 strategic videos, you can train YouTube to know exactly who to send your content to.

That's what the Magnetic 8 is designed to do:

Help YouTube understand your channel faster, so it can send you the right people.

---

## **You Record. You Publish. I Do the Rest.**

This is asynchronous, so it won't demand a bunch of meetings or take over your calendar. We'll get on a call only if needed.

**And it works whether you're launching a new channel or leveling up an existing one.**

Imagine the momentum you'd feel with your next 8 videos fully mapped out. Every decision made for you. Every script optimized for traction.

These 8 videos will set the tone for your future success, almost acting as templates so that every video you ever create will be as strong as possible.

***And the sooner you train the algorithm, the sooner it works for you.***

## **Special Founders Rate: Save \$700**

I've been teaching this to entrepreneurs, but I've never offered it as a done-for-you service until this summer.

In the future, this service will be \$2,500. But right now, I'm looking for a small group of entrepreneurs who want this done in September 2025 for just \$1800 USD.

Why?

Because I'm building success stories.

You'll get the full Magnetic 8 experience, two high-value bonuses worth nearly \$2,000, and my personal attention throughout, for almost half the future price.
