1. Introduction [Segoe UI 12, bold]

[No margin for the first paragraph after the sub titles] The first part of the article should comprise of the background, research gaps, and contexts of the study. The first part of the article should comprise of the background, research gaps, and contexts of the study. The first part of the article should comprise of the background, research gaps, and contexts of the study.

When there is no separated theoretical framework addressed in the paper, please include the literature review in the Introduction together with the background, gaps, and contexts of the study. When there is no separated theoretical framework addressed in the paper, please include the literature review in the Introduction together with the background, gaps, and contexts of the study. When there is no separated theoretical framework addressed in the paper, please include the literature review in the Introduction together with the background, gaps, and contexts of the study.

2. Literature review [Segoe UI 12, bold]

2.1. Subsection [Times New Roman 12, bold]

2.1.1. Sub Subsection [Times New Roman 12, italic]

When the paper requires separated literature review, put it in the section 2. In this section, please use the most updated and relevant studies to your research. When the paper requires separated literature review, put it in the section 2. In this section, please use the most updated and relevant studies to your research.

To avoid plagiarism, the authors are suggested to use indirect quotation. To avoid plagiarism, the authors are suggested to use indirect quotation. To avoid plagiarism, the authors are suggested to use indirect quotation. To avoid plagiarism, the authors are suggested to use indirect quotation. To avoid plagiarism, the authors are suggested to use indirect quotation. To avoid plagiarism, the authors are suggested to use indirect quotation.

3. Method [Segoe UI 12, bold]

In this part, please elicit the research method applied in the study. Explain the correspondence between the research gaps and the research method, the data collection, the participants, and the data analysis.
