# **LEARNING SPACES GUIDING PRINCIPLES**:

## In the D34 LRCs, our **Learning Spaces** will be

**adaptable and functional**

- multi-use
- multidimensional
- a variety of spaces
- dynamic
- flexible
- agile

**beautiful and comfortable**

- incorporate natural light
- include curves and straight edges
- open
- thoughtful use of color
- some softness
- adjustable temperature
- acoustics allow for multiple groups to work at the same time

**learner-centered**

- display artifacts of learning
- appropriate size/scale for children
- honors the child
- inclusive
- choice

**developed collaboratively**

- teacher
- student
- community

**Our spaces will reflect an innovative vision for learning in order to support curiosity, collaboration, creation and the exchange of ideas.**

- programming
- teaching
- learning
- Resources

LEARNING SPACES GUIDING PRINCIPLES

MISSION

**Our learning spaces will support curiosity, collaboration, creation and the exchange of ideas. We recognize that learning is impacted by physical space, and that programming, resources, teaching and learning must also reflect this innovative vision for learning.**

VISION

In the D34 LRCs, our **Learning Spaces** will be

**adaptable and functional**

Spaces are multidimensional and support multiple uses. A variety of spaces are available for different purposes, and the space is dynamic, flexible, and agile.

**beautiful and comfortable**

- Spaces incorporate natural light. Human needs are met through temperature and light control, and acoustics that allow
- include curves and straight edges
- open
- thoughtful use of color
- some softness
- adjustable temperature
- acoustics allow for multiple groups to work at the same time

**learner-centered**

- display artifacts of learning
- appropriate size/scale for children
- honors the child
- inclusive
- choice

**developed collaboratively**

- teacher
- student
- community
- programming
- teaching
- learning
- Resources
