Syllabus

Students will study Chemistry through investigation of matter and its interactions. By investigating the composition, structure, properties, and changes that matter undergoes, we will fundamentally be working from a chemical reactions standpoint. Students will be working from a variety of directions including group work, independent investigation, and whole class activities. Upon completion of this course, students will not only have a deeper understanding of Chemistry but also continue to develop as learners.

Rules

Be Prepared

Respect Everyone

No Cell Phones

- a. Be seated when the bell rings and ready to go!
- b. Tardies will not be tolerated - see handbook
- c. Labs and home work may or may not be individually graded but all units will receive a portfolio grade at the end of the unit. A checklist will be provided.
- d. Late work accepted until the end of the current unit. Example: Once we take the unit 2 test, I will not accept unit 2 work unless the absences make it unlikely that work can be completed.
- e. It is your responsibility to follow up when you miss class.
- f. DO YOUR OWN WORK
- g. No food, water bottles must remain away from lab tables
- h. Stay out of lab table areas until told to start an activity in that location
- i. Students leaving the classroom must utilize the app and turn their computer forward. Do not use the RR/app during lecture time. Only use green passes to the RR by the cafeteria.
- j. Lab safety is paramount, safety contracts **must** be signed and returned for you to participate.
- k. Help - besides flex time, I am available before school most days and after on pre-arranged days.
