

Shot logging is changing the file names for your video and audio files.

 MV01554.mp4 >  Scene 1 - Shot 3 - Take 2 - Good .mp4

This should be done for a variety of reasons

Professional practice - it's what you'll be doing when you get into the industry

It helps with editing process - this ensures your project management is steady and finding the right clips is much easier

You can do this in a couple of ways, but it's important to be consistent!

Second way =

Scene 1 - Shot 1 - Take 1 - Good - Video

Scene 1 - Shot 1 - Take 1 - Bad - Audio

 Scene 1 - Shot 3 - Take 2 - Good .mp4

First way =

Scene 1 - Shot 1 - Take 1 - Video

Scene 1 - Shot 1 - Take 1 - Audio

■ Scene 1 - Shot 3 - Take 2 .mp4

Third way =

Classroom - WS - Mark sitting down - Good

Quad - MS - Georgia talking to Sam - Bad

■ Classroom - WS - Hus talking - Bad .mp4
