

# Virsa Labs – Payment Link Directory

## Purpose

This document serves as a quick reference for the outreach and sales team to share the correct payment links with clients.

Each price tier includes **two Stripe links**:

- The **Standard Link** — used when the client is paying without a trial.
- The **Free Trial Link** — used when offering a free trial before payment.

## Usage Rules

1. Always **double-check each link** by opening it in a new tab before sending it to a client to ensure it's accurate and active.
2. Use the **Standard link** unless a **free trial** has been explicitly approved by Arsh.
3. If a link appears broken or incorrect, or if a **new payment amount** is needed, contact **Arsh** immediately.
4. Keep this document updated with the latest links to avoid confusion during outreach.

## Notes

- If the client requests a **custom amount**, message Arsh to generate a new link.
  - Always verify that the **currency** and **plan details** match the client's agreement.
  - Never send a payment link that hasn't been verified.
