

[Mule deer numbers good, but may be hard to reach](#) September 27, 2017 Washington
The Daily Herald

... Okanogan County has the largest migratory mule deer herd in the state... Heavier than average fawn mortality last winter was balanced by better postseason buck escapement (resulting in a buck-doe ratio of 20/100 compared to 16/100 in 2016) ...

[Wolves, bears, prescribed burning and more discussed during WDFW Q&A session](#)
July 14, 2019 Washington, The Spokesman-Review

... In 2019 WDFW eliminated antlerless deer hunting in Game Management Units 101 and 121. "We don't believe that we have a buck problem from the standpoint of a breeding efficiency," Pozzanghera said, adding that pregnancy rates are about 90 percent in Eastern Washington...
