

Rotary Global Service Project Made Easy

Rotary Shark Pond is a global service project in the form of an entrepreneur pitch show like *Shark Tank*...but friendly. Budding entrepreneurs from impoverished areas in Africa are trained and then pitch their business ideas to Rotary Clubs that award them with zero interest start-up loans. Watch the video at https://youtu.be/G7_k_kXseUE?si=8SHa7KlyhdpoEeeX or the QR below to see how it works.

Your club will love this live event as you:

- Help start a fascinating business (egg farms, seamstresses, recyclers, artisans, metal works, plumbers, food carts, and more!)
- Lift a new friend in Africa out of poverty...permanently, through entrepreneurship
- Build club fellowship through world service that does not require travel or a big investment
- Feel a sense of purpose together as you receive monthly success stories, thank you's, photos, and videos from **your** entrepreneur

Rotary 
Shark Pond
Service Projects D5400

It takes only 1 hour and \$1,000 to run this rewarding, fun, personal, virtual service project. Rotary Shark Pond service projects have an excellent track record of success. Our Rotary partners in Africa allow us to guarantee that 100% of your donation goes to those in need, not to overhead.

These virtual service projects, called *Shark Pond* entrepreneur pitch shows, are held in English over video-conference. The impoverished, but aspiring entrepreneurs who pitch their business ideas to you for startup funding, share their personal story of overcoming adversity and passion for the type of business they choose to start. You will be part of that personal success story as you serve as "Sharks" or guest judges who ask questions, give advice, and award startup funds to them, your new friend. This even works great during regular club meetings. No travel or large investment is required!
