**Course Description**

Introduces teaching, learning, and curriculum in the secondary humanities classroom. Focuses on planning curriculum and instruction and preparing to become a justice- and liberation-oriented educator. Seeks to ensure that student teachers/ teacher candidates have a foundational body of knowledge about theory

and practice with regard to curriculum and instruction. This is the first of a three-course sequence. The course will address the following TPEs: 1.3, 1.4, 3.1, 3.2, 4.3, 5.1, 5.2, 7.9.

## ELJJ Goals

We aim to prepare teachers who have the disposition and skills necessary to gather empirical evidence needed to examine and evaluate curricula, pedagogies, and assessment for justice, inclusion, transformation, and liberation. We also want to be sure that ELJJ teachers can build on their students' and their own assets to ensure that growth and learning is developmentally appropriate and healing. We expect teacher candidates in our program to identify ideologies and inequities from a critical perspective and work toward dismantling them and foster conditions that are fair and equitable. Finally, we see ourselves as a community who appreciates our shared experiences and vision to change education for the better and enjoys our collaborative work. By the end of this course, the students should be able to demonstrate their achievement toward the goals through a set of Measurable Criteria as listed following each goal:

### Goal 1. Safety, Wellbeing, and Care

- a. 1. Value and aim to ensure the safety and wellbeing of every student as well as colleagues in ELJJ (and other programs).
- b. 2. Actively create a space that welcomes, includes, nurtures, and appreciates students of all backgrounds.
- c. 3. Creates and maintains a safe working and community environment for students, colleagues, and self.
- d. 4. Recognize that teaching is inherently moral and guided by an ethic of care.

### Goal 2. Culturally-sustaining, anti-racist teaching

- a. Recognize that one's positionality (i.e., gender, race, sexual orientation, socioeconomic background) and life experiences biases our lens in how we one sees others, particularly those who come from vastly different positions.
- b. Demonstrate interest in learning with and from others, especially those from historically marginalized communities and who are not in positions of power.
- c. Purposely seek out the perspectives of those from nondominant backgrounds (i.e., people of color, undocumented, materially privileged, LGBTQAI).
- d. Practice intentional listening, making space for marginalized voices, in classrooms and community settings.
- e. Focus on how (not if) privileged parts of one's identity shape life and teaching practice.

## Course Goals

1. **Study and Application:** Understand and apply the foundational theories, principles, and practices of curriculum and instruction in diverse educational contexts. This includes the development of inclusive, equitable instructional practices tailored to secondary humanities education.
2. **Discussion and Engagement:** Engage in discussions of assigned readings, the challenges they present, and navigate the intricacies of curriculum design and instruction. Demonstrate the ability to use various instructional strategies and techniques to promote student engagement and learning.
3. **Reflection:** Critically reflect on one's teaching practices, make necessary adjustments to enhance student learning outcomes, and contemplate how personal positionality affects teaching. Use critical reflection and reflexivity to assess their ideological evolution through schooling and socialization.
4. **Justice and Liberation:** Delve deep into the roles of justice and liberation in education. Aim to teach in ways that actively counter oppression and humanize all participants in classrooms, schools, and communities. Incorporate these principles into everyday teaching practices to create socially just learning environments that challenge dominant ideologies and inequalities.
5. **Comprehensive Curriculum Planning:** Demonstrate proficiency in planning a thorough curriculum that aligns with academic standards and addresses varied learning needs.

This exercise emphasizes the importance of initial communication and understanding student backgrounds. After crafting these assignments, students are expected to complete them personally, offering a reflective lens on their creation.
