

April 20, 2020

Dear Families,

In the attached packet, you will find reading, writing and math practice pages, to be completed as we continue our Distance Learning for days 20-29. **Please note the day numbers on the top of the pages in packet 3 are slightly off. When you print this document, change the day 21 work to day 20, change day 22 to day 21, etc. Your last three pages should be day 29.**

Each day, please have your child complete the following:

- Watch assigned Bookflix for the day and complete the related activity. This will be linked to the lesson plan daily.
- Read books from the book baggies or from home aloud independently, to a family member or to a stuffed animal. You can also read books on your Raz-Kids account.
- Complete daily math practice page (two worksheets). You can also work on your Splash Math account.
- Complete daily word work practice page (one worksheet)
- Complete daily sight word practice (one worksheet and one practice activity)
- Complete daily "True Story" Writing. Try to write 2-3 stories each week.

Please reach out to your child's classroom teacher via email with any questions regarding any of these practice activities. As a reminder, please try and follow the suggested plans for the day. If you are looking for additional activities, please use the Distance Learning Usernames and Passwords document to log into our school district online resources. You can find this document under the Kindergarten tab on the Distance Learning site. Thank you for your cooperation and flexibility.

Sincerely,

Kathleen Scotti, Principal
