Principal's Message:

Happy first day of spring, and as the last day of school before Spring Break comes to a close, we hope you all have a restful and well-deserved time off.

When we return, we will begin the forecasting process. Counselors and administrators will be visiting our elementary schools to start forecasting and support the important transition to becoming a sixth grader. Later in April, counselors will work with our current sixth and seventh-grade students to complete their forecasting as well.

If you would like to learn more about the levy, [please click the link provided](#). We encourage you to reach out with any questions you may have. In April, you will also see principals inviting our school communities to coffee talks to help provide a better understanding of the levy, why it is important, and how the funds will be used.
