

Reject Patel and Gabbard from Trump's Cabinet:

Kash Patel (FBI) and Tulsi Gabbard (Director of National Intelligence) are both up for full Senate confirmation today. Neither is qualified, and both will abuse their positions to harm Americans.

Patel has already said he would use his position to prosecute political enemies. Gabbard is widely believed to be a Russian asset. Fox News is reporting that Gabbard doesn't currently have enough GOP support, so there is definitely a chance she will go down.

Script:

Hello, Senator _____. I am a constituent from zip code _____ and I want you to vote against confirmation of both Kash Patel for FBI and Tulsi Gabbard for DNI. Both are dangerous picks who cannot be trusted. Tell Sen. _____ to vote NO on Kash Patel and Tuli Gabbard.
