We are volunteers with loved ones in Gaza. We give direct mutual aid to displaced & distressed families to meet their basic needs during these catastrophic times. Our main focus has been supporting multiple teams of our family members in providing clean water, food, tents, clothing, and direct cash to families in Gaza. We have also supplied clay ovens, repaired a sewer system, installed a water well, supported a revived school, and funded medical workers and civil defense crews. We are so grateful for the generous community support we have that has enabled us to continue to support these projects. Please keep pushing to stop the genocide, build community and organize to Free Palestine 🇵🇸

- b) Contact us via the [FORM](#) or direct email. We will provide a name and instructions on how to transfer funds.
- c) Once you get notice that the funds have been received, please let us know by emailing us back. (If you prefer to send the funds directly to us, see option 1 above.)

**When donating, please do not write "palestine" "gaza" or use watermelon or flag emojis. tents/water/bowls of soup/etc are better to avoid being flagged.**

Examples of how the funds have been used can be seen in this [album](#).
