Dear UVA Administration, Members of the Racial Equity Task Force, and President James Ryan:

For decades, Black students have utilized their voices to speak out and mobilize against many issues concerning racial injustices and inequalities at the University of Virginia. Efforts have been led by many organizations such as, but not limited, to the Black Student Alliance (BSA), Living Wage Campaign, Student Advocates for Equitable COVID-19 Response, University of Virginia Strike Committee, Towards a Better University, March to Reclaim Grounds and other student leaders who continue to stand up against injustice. It is imperative to reiterate that this statement is not disparate, rather a continuation of the work and extensive efforts of past and contemporary members of the Black community at UVA. Thus, our intent is to hold the administration accountable for their lack of urgency in acknowledging and resolving pre-existing issues that affect the existence of Black, Indigenous, and other People of Color at UVA.

After reading your statements on the state of the nation, many of us, specifically Black students, are disappointed by the lack of exertion. When given the platform and opportunity to speak out against police brutality, there was no mention of the racial injustices enacted towards Black People nor the repeated accounts of racial violence inflicted by the police. We are not asking you to “walk in our shoes.” Rather, we are asking you and the University of Virginia not to be complacent when it comes to fighting against systemic racism and inequality, which the University regularly fails to do. Despite being built by enslaved African-Americans, founded by a slave owner, and home to Eugenics, the University has not taken the necessary steps to

properly acknowledge its racist foundation. The lack of substance in your statement and in the support from this school is a continuation of violence that students have endured since its inception in 1819. It is time for the University of Virginia to reevaluate its priorities and make a comprehensive culture shift. The University must directly address the injustices and inequalities that Black students, faculty, and workers face every day on Grounds.

When hundreds of Black students on Grounds expressed their anger and frustration with the lack of Black faculty and staff, demands remained unaddressed. When Black and Brown students asked their majority counterparts to be cognizant of the space they were taking up in one of the few areas designated for marginalized students, we were not met with support, consolation, or direct action from the administration; instead, there was a brief acknowledgment for the situation, which demonstrated complete indifference, in addition to a lack of accountability and compassion. Additionally, the failure to denounce transphobia and lack of action to hold those who defaced the Beta Bridge accountable when “Protect Black Trans Women” was targeted indicates to us as students that we should not have faith that (our/the) institution will protect us. These are incidents where statements that were made on your behalf left Black students feeling unheard and less important than our White counterparts. In your statement, you mentioned the need for faith, yet neglected to include the steps that we, as a community, must take in order to serve as an example for other institutions across the country. The University must take action in order to see the outcome of which you spoke so graciously. Thus, we present you with this motion, of utmost urgency,

- 1. Create an institutional regulation that strictly prohibits both visible and intangible presence of neo-nazis, white supremacists (as domestic terrorist organizations) on Grounds.**
 - These entities embody an ominous threat in its historical and contemporary trajectory to the safety of BIPOC people in Charlottesville. In order for you to guarantee the protection of Black people and POC at the University, this is one essential policy in regards to public performance measures that must be established and announced.
- 2. Paying all workers, non-federal work-study, part-time, and providing full-time workers a living wage in relation to the area they reside in.**
 - Provide comprehensive hazard pay for all staff members.
- 3. Hire more faculty and professors of color in the College, the School of Engineering, the School of Architecture, and the Graduate School of Arts & Sciences.**
- 4. Reevaluate the University's relationship with the University Police and the Charlottesville Police Department.**
- 5. Require all students to take a course on race and ethnic relations in America within their first year as a requirement to graduate.**
 - Incorporate Anti-racist teachings into the course curriculum.
- 6. Increase the funding for African-American & African Studies and American Studies departments.**
- 7. Increase both the availability and number of courses to underclassmen that specifically focus on the history of Black activism and Black politics at UVA.**

- i.e. “Black Fire” which is more likely that fourth-years will get in the class due to priority registration.

8. Free enrollment for students who are descendants of the enslaved laborers who built the University and Charlottesville/Albemarle area.

9. Examine and act on biases towards Black people within the Honor and University Judiciary Committees.

- Acknowledge the lack of minority representation in leadership positions within these organizations.

10. Enact matriculation for all, especially Black and People of Color, undocumented students at UVA.

- In contrast to other universities of the State that allow undocumented students to matriculate, the University of Virginia is reluctant to matriculate undocumented students.

11. Create more professorships, fellowships, and tenure-track opportunities for Black faculty entering the McIntire School of Commerce and Batten School of Leadership and Public Policy.

12. Erect clear public signs on sidewalks and lawns to commemorate enslaved laborers in spaces such as the Gooch-Dillard Residential area.

- This action may be done to effectively increase awareness and pay homage.

13. Provide required, comprehensive programming at New Student Orientation regarding the University’s history of slavery and racial injustice.

- Facilitate conversations between Orientation Leaders and orientees surrounding white privilege and systemic racism as it pertains not only to institutions of higher education like the University but beyond it as well.

14. Effectively acknowledge and address the lack of minority staff members in Housing and Residence Life.

15. Reevaluate updated University of Virginia Athletics Logo to address the usage of racist imagery with the incorporation of Serpentine Walls into the Virginia Saber.

We want to emphasize these are not requests or suggestions, rather achievable *demands*.

We are holding the administration accountable to promptly implement effective reparations for the University's indifference towards fulfilling the calls of Black students, faculty, and staff. The Black community at UVA have watched loved ones, friends, and communities suffer for far too long, due to passive leadership. The University has perpetually benefitted from, and profited off, Black and Brown labor while being hesitant to listen and help Black and Brown voices. Heart-to-hearts, think-tanks, and open forums are not the catalysts we need for sustainable change to be achieved. Action is required, and the time is now.

In Love and Solidarity,
