

## Names of God List

The following is a list of names for the Divine compiled by me. Many of the translations are adaptive/expansive, with various translations by myself, Rabbi Jill Hammer, and Rabbi Zalman Schachter-Shalomi, z”l (*zichrono livracha, may his memory be for a blessing*).

There are many entry points within Judaism for connecting with the Holy One, and having a name for this holy, ultimately unnamable force can be extremely helpful in allowing us to build a more intimate relationship with the Divine. As you read over this list, pay attention to the names that call to you. Close your eyes and practice tuning into a *felt sense* of this name- the qualities and characteristics- feeling yourself being held in the energy of this manifestation of the Divine. Pick out several that call out to you and experiment with what these different names do for you.
