

Compressor Technologies

Information required for Refrigeration Lubricant Recommendation

Compressor Brand and Model:	
Compressor Type: (Reciprocating, screw, scroll, centrifugal, etc)	
Compressor Serial Number:	

Operating Condition

Compressor Suction Temperature:	
Compressor Suction Pressure:	
Compressor Discharge Temperature:	
Compressor Discharge Pressure:	
Oil Injection Temperature: (If applicable)	
Sump pressure: (For reciprocating compressors)	

Refrigerant in use currently:	
Refrigerant required to be used: (If planned to change)	

Lubricant in use currently: (If system is not new. Please add Brand name and ISO VG)	
---	--

Type of Application (Automotive A/C, Industrial Refrigeration, Air Conditioning, etc), system features, lubrication system

--

Experienced problems (foaming, excessive dilution, high carry over, color change, etc.):

--
