

Hi Neighbors!

Have you noticed an increase in cafe lights strung throughout the peninsula? Not only do they look great and create a sense of community, they also supplement the streetlights to increase the safety of the residents. While numerous blocks have taken the initiative to install the cafe lights already, there are many more blocks who could benefit from adding them.

My name is (insert your name) and I live at (insert your address). I am hoping to serve as your “block captain” to help organize the installation of cafe lights for our block.

Good News! While there is a cost to have the lights installed, I recently learned about a grant being offered by local Realtors, Key Group of Cummings & Co. Realtors, that could potentially cover a lot of the expense. Key Group is offering a one-time \$1,000 community grant to help one community-minded block have cafe lights installed. To learn more about this grant please visit www.XXXX.Com. If we want to try and apply for this grant, we will need to get organized quickly!

Would you like to help light up the block? The average cost is about \$100-140/house.

- ☐ Yes, I am able to support with about \$125.
- ☐ Yes, I am able to support with over \$125 to cover costs for neighbors who cannot afford to support. I will commit \$_____ in total for this project.
- ☐ Yes, I am interested in having lights on our block but I cannot financially support it. I would like to support another way.
- ☐ No, I am not interested in having lights on my house.

Please reply with the information below and return this form to my mailbox at (insert your address):

Name: _____ House Number: _____

Cell Number: _____ Email: _____

If there is enough interest, I will be in touch with the next steps!

Thanks,

(insert your name, address, cell #, and email)
