Who is UYG ?

United youth guild (UYG) a non profit organisation wants to engage and motivate diverse communities to connect with their cultural proportion around the world. We have the expertise to interpret cultural ideas and surpass people's expectations.

. Our aim is to help communities engage their youths and connect with their culture through the medium of live events. We live and breathe our strapline – Create the Ultimate Experience. We believe that by creating the ultimate experience for our communities, youths and adults we can achieve great things.

What We do?

UYG is a charity which provides free access to educational training and performance opportunities for young musicians and audiences throughout the UK.

Family-friendly, interactive event that celebrates Britain's History, Culture & Diversity.

Nonprofit event raising money for cultural programmes in the UK.

From now on, UYG Music invites hundreds of young people to participate in immersive musical activities and concerts through singing, playing, and performing at our Youth Festival showcase. These interactive days are designed to celebrate the talent of every youth throughout the local community. Through their participation, students will:

- build their musicianship skills, including performing with others.
- gain a great sense of accomplishment being a part of a large-scale production.
- learn and play songs together with children from other schools, cultivating their social skills and boosting their self-esteem through the enjoyment of music.
- have the chance to perform in award-winning venues such as the Millfield theatre, the Alexandra palace and even the Barbican.
