Provide Greater Access to STEM Education to All Students

**Noah W.**

**Tutor  
San Antonio Math Include**

Noah joined SaMi as a student in 2021. He was a recipient of the Grand Honors from Johns Hopkins Center for Talented Youth. He is a Davidson Young Scholar for the Highly Gifted. Besides his passion for math and science, Noah is a co-founder of MNMTrio, a non-profit Chamber Music group that plays for nursing homes and underprivileged members in his community. Because of his dedicated volunteer work, he was awarded the Gold Presidential Volunteer Service Award in 2024. His favorite subject is Earth and Space Science. He has been working towards his dream of becoming an astronaut. One of the most memorable experiences he has had was watching a rocket launch live on Cocoa Beach, just miles away from Kennedy Space Center. He enjoys coding digital games, playing piano and guitar for his cat, robotics, and history.
