The title of your paper (Capitalize the first letter)

First author^a, Second author^{b,*}

^aFirst affiliation, City, Country

^bSecond affiliation, City, Country

Abstract

The abstract must be written in English and should be informative and entirely self-explanatory. It should have a length of 250 to 300 words. Standard nomenclature must be used, and abbreviations should be avoided. Citations from the literature are not preferred. The abstract should be formatted in Times New Roman, 10-point font, single-spaced, with the word 'Abstract' aligned to the left. It must provide a clear and concise yet comprehensive summary of the study.

Keywords: Type 3-5 keywords here, separated by commas

**Corresponding author: E-mail address*

1. Introduction

Authors are expected to submit carefully written and thoroughly proofread manuscripts. Spelling, grammatical errors, and language usage issues are not acceptable in the final submission. While there is no strict page limit, it is recommended that the paper does not exceed **8,000 words**. Technical terms should be clearly explained, and acronyms should be spelled out upon first mention.

2. Literature Review

2.1. Literature review subheading

A uniform format will enhance readability and ensure consistency throughout the proceedings. This can be achieved most effectively by using this template to prepare manuscripts.

Please note the following formatting guidelines:

- The template follows an A4 page format.
- The text should be written in 11-point Times New Roman font.
- All text paragraphs should be single-spaced, with first-line intended by 10 mm (0.4 inch)
- Available text styles include bold, italic, and underlined.
- Double spacing should be used only before and after headings and subheadings, as demonstrated in this example.
- The position and style of headings and subheadings should be maintained as shown.
- No extra spaces should be added between paragraphs.

3. Methodology/Materials

4. Results/Findings

Figure captions and table headings should provide enough detail to be understood independently, without requiring reference to the main text. Figures and tables that are not cited within the text should not be included. It is recommended that text in figures is not smaller than a 10-point font size. This template provides predefined styles, Heading Table and Caption Figure, for formatting tables and figures consistently. Below is an example of Table 1.

Table 1. Title

Construct	Mean	SD
Sample	4.12	.65

Note. * sample

Tables and figures should be placed as close as possible to their first reference in the text and numbered sequentially using Arabic numerals. Table headings should be positioned above the tables, while figure captions should be centered below the figures. To ensure clarity and readability, all figures must have a minimum resolution of 150 dpi.
