Provide a general synopsis of what the course/activity covered/contained.

MDOT SHA engaged an Internal Partnering Committee to take on Plan Quality. Plan Quality has been a persistent challenge for the industry. The Committee took a data-driven approach through surveys of stakeholders offering various perspectives. Two specific areas rose to the top and are being explored further in a workshop/panel setting at MDQI. The goal of these sessions is to have a candid discussion and to develop a plan to move forward post-conference. This presentation will have two parts. Part I will focus on Inconsistencies in Contract Documents and Part II will focus on Constructability.

Attach any documentation of participation: i.e. Certificate of Attendance/Completion, transcripts, handouts, tests, programs, outline, reports and other demonstrative evidence of attendance.
