Purpose of the Event

As We Are is a community-led art project. It sends free creative packages by post to artists of all kinds, from beginners to professionals, so they can explore their creativity in a way that feels comfortable for them. The project ends with a small community gallery night. Artists will share their pieces with the wider community, offer them for sale if they wish, and can choose to speak on a panel about what creativity, accessibility and expression mean to them.

The event exists to:

- Provide a safe space for creative exploration, free from ideas of 'good' and 'bad' art
- Connect people with peers, including people with mental health challenges and people with disability
- Mark International Day of People with Disability (3 December)

About Integrity Initiative
