WORK EXPERIENCE

CSAA

Jan. 2024 – Present

Site Reliability Engineer I

Remote

- Utilized New Relic, AWS, and Atlassian Status Page to monitor to monitor internal application health
- Coordinated and managed application deployments alongside other SREs
- Created and maintained alerts/dashboards in Splunk and New Relic for application monitoring

Leaf Home

Feb. 2023 – July 2023

.NET Developer (6-Month Contract)

Hudson, OH

- Created admin-level features for the proprietary CRM utilizing C#, ASP.NET and Microsoft SQL Server.
- Managed the design and implementation of stored procedures and views for various SQL tables.
- Led the web design and implementation of RESTful APIs for several internal applications
- Curated user experiences by using WebForms and Javascript to create front-end UI for the CRM
- Used Microsoft Azure DevOps and Git to ensure version control, scalability, and consistent project updates

Cook Medical

Oct. 2021 – June 2022

Remediation Engineer (8-Month Contract)

Remote

- Initiated remediation efforts for a Medical Device Family
- Researched ISO 11070 and ISO 80369 in order to author Risk Management Documents
- Collaborated with other engineers to coordinate remediation efforts for other DHFs concurrently

Gotz a Lot of Games

June 2020 – Sept 2021

Sales Associate

Parma, OH

- Earned customer satisfaction with excellent verbal communication; maintained store inventory and cleanliness
