

Follow the instructions to create and pin online locations visited over 24 hours to your map.

1. File - make a copy, move to cybersmart folder
2. Use the template map or create your own using Pixlr and insert into the Google Draw.
3. Arrange - send map to back
4. Use icons or screenshots to pin the sites from your 24 hour footprint on your map

Locate icons in Google Images with a transparent background

Screenshot sites you have visited

5. Insert the link for each site in your icon (ctrl- K)
6. Duplicate and arrange footprints (ctrl-D)
