Impact Team SMART Goal Template

Identify a Student Learning SMART Goal (specific, measurable, attainable, results oriented, time bound)

Example SMART Goals:

Proficiency:

- Students scoring a 3 or higher on the NY state test will increase from 20/100 to 50/100 students by the EOY measured by MAP, State Test and school-based formative measures.

Progress:

- We will move 30/30 Level 1's to a 2 by the EOY as measured by MAP, NY State Test and school-based formative measures.

Action Steps and Products	Team Members	Time Frame	Impact and Evaluation
What steps will you take to achieve your goals? What products will you create?	Who is accountable for this step or product?	What is the time frame for this step or product?	How will you monitor impact? What evidence will you use to show progress?
