

Haute Goat Farm is one of the largest breeders of Nigerian Dwarf Goats in Canada. Each year we have between 20-30 kids available for sale. We also have a small number of mini-Nubian kids that we sell. Please note that we only sell our kids to pet, milking, and breeding homes.

We are very proud of our clean tested herd. When you take your kid home it will be very well socialized, disbudded, and have first set of vaccinations (Tasvax). The Nigerians are also registered with the CLRC.

We like to keep the kids until 8-12 weeks of age, so that they are well socialized with people and other animals.

If you are new to goats, or have any questions, please don't hesitate to be in touch. We are always available for information and help after you've taken your babies home to be sure it's a successful experience for you and your new kid.

Bucklings can be sold neutered if preferred. In that case males are neutered when they are more than 8 weeks old at a minimum. Prices are adjusted for neutered males. Please ask for details if interested.
