Deaf-Blindness: Guide Support Communication Development

A new guide to support the development of communication has been released by the National Center on Deaf-Blindness. The new [Supporting Communication Development practice guide](#) details the essential components of instructional practices commonly used to expand and support a child's communication, including foundational strategies to plan for and engage in meaningful interactions.

Transition out of High School

Montana Transition Resources from the Rural Institute of the University of Montana provides transition planning workbooks, employment, health, and guardian alternative options. visit <https://transition.ruralinstitute.umt.edu/> for more information.
