Privacy Policy for Remold

Effective Date: 11.11.2026 Version: 1.0

1. INTRODUCTION AND SCOPE

This Privacy Policy describes how Remold ("the Extension", "we", "us", "our") collects, uses, stores, and protects information when you use our browser extension for Google Chrome.

Remold lets you adapt how websites look and behave without writing code. You point at an element on a page and choose what happens to it, for example hiding it, changing its colours or keeping it on screen. Your choices are saved as rules made only of settings, which the Extension applies when you visit the page again.

By installing and using the Extension, you acknowledge that you have read, understood, and agree to this Privacy Policy.

2. INFORMATION WE COLLECT AND PROCESS

2.1 Local Data (Stored on Your Device Only)

All core functionality runs locally in your browser. The Extension stores the following data in the browser's extension storage (chrome.storage.local):

- **Rules and collections** – the elements you chose, what should happen to them and the websites they apply to. To find an element again, a rule may keep a short text fragment from the page that you selected, such as a button label
- **Recently deleted rules and collections** – kept for up to 30 days (at most the latest 20 deletions) so you can restore them, then removed automatically
- **Settings** – interface language, theme and similar preferences
- **Toggle button state** – whether a panel you can collapse is currently open or closed
- **Diagnostic log** – short technical messages about rules that could not be applied, kept on your device only
- **Remold Pro status** – whether this installation has Remold Pro and when it was last checked

Two kinds of data live only in the browser's temporary session storage (chrome.storage.session), are never synced and are deleted when the tab is closed or the browser ends the session:

- **Rule status per tab** – the address of the open tab and which rules work there, used to show the counter on the Extension icon and the status in the popup
- **Links opened by a rule** – which rule opened which tab, so that other rules can react to it; the note ends when the tab moves to another page

This data never leaves your device, except as described in Sections 2.2 and 2.3.

2.2 Chrome Sync (Optional, Off by Default)

If you turn on sync in the Extension's settings, your rules and collections are stored in your Google account through Chrome's own sync service (chrome.storage.sync), so they appear on your other computers. This data is processed by Google under Google's Privacy Policy. Toggle button states, deleted rules, the diagnostic log and session data are never synced.

2.3 Payment Data (Remold Pro, Processed by ExtensionPay)

Remold Pro is sold through ExtensionPay (extensionpay.com), which uses Stripe to process payments.

- The Extension contacts extensionpay.com only after you have opened the purchase page or the "I already have Pro" login page
- ExtensionPay then creates a random key that identifies this installation. The key, the time the Extension was installed and the purchase status are kept in Chrome sync storage, as ExtensionPay requires
- From then on, the Extension asks extensionpay.com whether this key has paid. No information about your rules or the websites you visit is sent
- If you buy Pro or log in, ExtensionPay keeps the email address you give it, so that you can restore the purchase on another computer
- We never see or store your card number or billing details; they are handled by Stripe

2.4 Data We DO NOT Collect

- Analytics, telemetry or usage tracking of any kind
- Your browsing history
- The content of the pages you visit, apart from the short text fragments you choose when creating a rule (Section 2.1), which stay on your device
- Passwords, form contents or other personal information you enter on websites
- Payment card details

3. HOW WE USE INFORMATION

We use the data described above solely to:

- Apply your rules to the websites you chose
- Show which rules work on the current page and which need attention
- Let you edit, export, import, sync and restore your rules
- Remember your settings between sessions
- Check whether this installation has Remold Pro

We do not use any data for advertising, profiling, analytics or any purpose other than providing the Extension's features to you.

4. DATA SHARING AND THIRD PARTIES

4.1 We Do NOT:

- Sell user data
- Share data with advertisers or analytics providers
- Operate any server that receives your data
- Run code from rules or imported files: rules contain only settings, which are checked before use

4.2 Third-Party Services

- **Google Chrome Sync** – only if you turn on sync; subject to Google's Privacy Policy
- **ExtensionPay and Stripe** – only for Remold Pro purchases and purchase checks; subject to their own privacy policies

We have no control over and take no responsibility for the privacy practices of these third-party services.

4.3 Legal Disclosure

We may disclose information only if required by applicable law. Because we do not operate a server that stores your data, we hold no copy of your rules.

5. DATA SECURITY

- Rules and settings are stored in the browser's extension storage on your device
- The Extension asks for access to each website separately, when you save a rule for it. No website access is granted at installation, and you can revoke it at any time in the browser's extension settings
- All code ships inside the Extension package. No remote code is downloaded or run
- Files you import are treated as untrusted: their size, structure and every setting are validated, and imported rules stay switched off until you approve them
- Communication with ExtensionPay uses HTTPS

6. USER RIGHTS AND CONTROL

You have full control over the data stored by the Extension:

- **View and edit** – every rule in the popup, the side panel and the rule manager
- **Delete** – rules and collections at any time; deleted items can be restored from the Trash for 30 days, or removed from it immediately
- **Pause** – turn off all rules for a website with "Show the original page on this site"
- **Export** – save your collections to a JSON file
- **Revoke website access** – in the browser's extension settings
- **Turn off sync** – in the Extension's settings
- **Full removal** – uninstall the Extension to remove its locally stored data

7. CHILDREN'S PRIVACY

This Extension is not intended for users under 13 years of age. We do not knowingly collect any data from children.

8. INTERNATIONAL DATA TRANSFERS

Data processed by the Extension remains on your device. Data you choose to sync is handled by Google, and purchase data by ExtensionPay and Stripe, under their own policies, which may involve international transfers. We do not independently transfer user data.

9. LEGAL BASIS FOR PROCESSING (GDPR)

- **Legitimate Interest** – providing the core rule functionality on your device
- **User Consent** – optional features you turn on yourself, such as Chrome sync
- **Contract Performance** – delivering Remold Pro after a purchase

We do not act as a data controller or processor for the content of the websites you visit. The Extension only changes how those pages are displayed in your browser.

10. PAYMENT AND LICENSE

- The Extension is free to use with up to 2 rules and every action
- Remold Pro removes the rule limit and unlocks import, export and sync

- The price and terms are shown on the ExtensionPay payment page before you pay
- The purchase is verified through ExtensionPay. If the check cannot reach the service, the last known status is kept

11. LIMITATIONS AND DISCLAIMERS

11.1 User Responsibility

Remold changes how websites are displayed in your own browser. You are responsible for using it in line with the terms of the websites you customize and with your organization's policies. Blurring or covering an element is a visual aid only: the content is still present on the page and is not a security measure.

11.2 Warranty Disclaimer

THE EXTENSION IS PROVIDED "AS IS" WITHOUT WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED.

11.3 Limitation of Liability

TO THE MAXIMUM EXTENT PERMITTED BY LAW, WE SHALL NOT BE LIABLE FOR ANY DAMAGES RESULTING FROM THE USE OR INABILITY TO USE THE EXTENSION, INCLUDING DATA LOSS.

12. CHANGES TO THIS POLICY

We may update this Privacy Policy at any time. The effective date at the top of this document will reflect the most recent revision. Continued use of the Extension after changes constitutes acceptance of the updated policy.

13. CONTACT

For support or privacy inquiries, please use the support page of the Remold listing in the Chrome Web Store.
