

Research Title is Written With Times New Roman, Bold, Font Size 18

ABSTRACT

Write Abstract in English, not more than 250 words. Abstract is written in *Italic*, font Times New Roman, size 10 and single space. Abstract should briefly describe the study. Abstract must include the following separate sections:

Introduction: Contains 2-3 sentences including background, a brief gap analysis, novelty and aim of the study.

Methods: Contains study design, subject, methods, data collection and data analysis.

Results: Contains the main finding of the study

Conclusion: brief summary and potential implication of the study

Keywords: 5 words/phrases, each word separated by semicolon

INTRODUCTION

The introduction described the background/justification underline why the study was conducted, the gap analysis and completed with the novelty and the aim of the study in the last section of introduction. Citation writing uses superscript numbers before the dot¹. Library writing using Vancouver².

Subtitles such as INTRODUCTION, METHODS, RESULTS, DISCUSSION, CONCLUSIONS, ACKNOWLEDGMENTS, and REFERENCES are written in Times New Roman size 12 pt, Bold, spacing 1.15 fonts; before 12 pt and after 6 pt. The contents of the subtitles are made Times New Roman size 11 pt, justify, spacing 1.15; before 0 pt and after 0 pt. While the references section is written with Times New Roman size 11 pt, Bold, spacing 1.15; before 0 pt and after 3 pt.

METHOD

Write down the research method conducted here with *font Times New Roman*, size 11 pt, space 1.15.

Subjects and Methods contain research methodologies including: Research design / design, research location, research subject and sampling techniques as well as data analysis methods. Add *ethical clearance* in this section.

RESULT

Results Sub Topic Headings

The results present the characteristics of the sample data and the main findings of the study.

To clarify, the results can be displayed in tabular form and accompanied by images.

Provisions, the title of the image is written at the bottom of the image, in the *centre* (in the middle). Table headings are written at the top of the table in *centre*.

Figure 1. Image title high res at least 300 dpi
Complete with an important image description of the result (10 pt font)

Table 1. Table captions

DISCUSSION

Discussion Sub Topic Headings (If there are subtopics)

The discussion contains a discussion that connects and compares the results of the study with the theory tested and the results of previous research. The discussion can end by mentioning the limitations of the researcher and suggestions for further research.

Sub Topic Title Discussion

If there are several results that need to be discussed separately, a separate point can be made like this example.

CONCLUSION

Contains conclusions from the results of the study.

ACKNOWLEDGEMENTS

Parties actually involved in the research, including research funders if any.

CONFLICT OF INTEREST

Author should state if there is any conflict of interest occurred.
