All of the commissions description is below:

Headshot, Halfbody and Fullbody Commission

Pricing (\$USD)

	Lineart / Flat color	Full Render
Head shot	25	35
Half-body	30	40
Full-body	45	60

Detailed info:

Head shot: Aka “the floating head”. Character from top of the head down to the neckline.

Half-body: Character from head to the torso/base of the legs, depending on the pose.

Full-body: Character from head to toes in all of their glory.

The pricing does not include backgrounds. The pricing listed is only for one character.

Note: The pricing may vary and the true price will be known in the discussion process. Many factors influence the price of the commission. For example if your character is a full body but he is standing so far away that you can barely see him i won't charge you like a usual full body.

Add ons:

Background: All of the artworks will have some sort of free, simple background(simple shapes, patterns, gradients, etc.) but if you want to spice up your commission here is what I offer.

The price always depends on the complexity.

Background: + 50% (add ons not included) of the final price.

Complex/detailed background: + 100% (add ons not included) of the final price.

Examples:

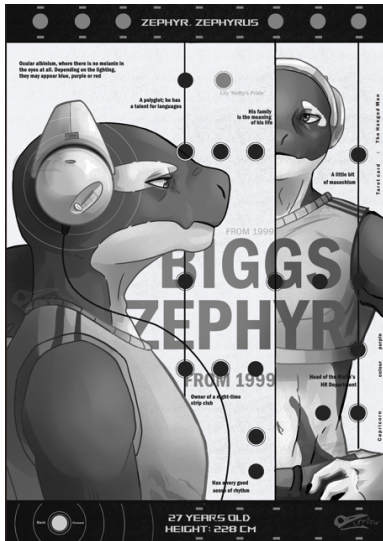

Free background:

Background (+ 50%):

Complex background (+100%):

More than one figure: If you want to have two, or more, characters in one scene you will have to pay for the other figure.

For example: You commission a flat color half-body with another figure resting their head on their legs.

(example)

commissioning me means you have properly read and agreed to these terms

Flat color half body (30\$) + Flat color head shot (25\$) = 55\$
(another figure is **always** included in base price and will be counted in add ons' percentage)

Complex designs: Grey ground. Depending on the complexity and the design, I haven't had any situations that required commissioners to pay extra for their design, yet.

All of the add ons summarise to the final price.

Special offers:

Rush job: 20% of the final price (add ons included)

Privacy (I won't post your commission on my socials): 20% of the final price (add ons included)

The timeline given is the timeline required to finish artwork composed of: 1 figure, no added background, no further add ons.
