

Hey G hope you are doing well,

I'm now in search of hotels. I approached one in my community last Tuesday and I delivered to them what I would do for them so he understood my concept and told me to come in two weeks by then he will get done with their webpage and social media. So we agreed and exchanged contact. So my next project is to go and approach another hotel whom I can start working for as soon as possible so that I can improve on my skills before I start with the previous hotel. In that case, I want to show them what will help grow their communication and visibility out there. So this Monday I will be going there to speak to them about what I will do for them and how to improve sales for them. In that case, I will want to present to them a sample copy of how it looks and how it will sound to their customers. So below is the sample copy I will want to provide for them.

Rate every copy out of 10 and then also tell me which copy is best for FB and IG ads and then also tell me what is missing in each copy

NB: I am supposed to present either of these copies tomorrow so please tell me what I should add and subtract to make it look compelling.
