- React Native
- Next.js
- HTML, CSS
- JavaScript, TypeScript
- Redux

Styling Libraries

- Chakra UI
- ShadeCn
- Ant Design
- Tailwind CSS
- Material UI
- Bootstrap

Others

- Node.js
- Git, GitHub, GitLab
- GraphQL
- Unit Testing, Jest
- AI Prompt Command

EXPERIENCE

Frontend Engineer (Nov 2023 - Present)

Pakam Technologies, Lagos

- Developed savings and investment features for Users.
- Developed an AI-based Customer Support feature using OpenAI.
- Built a multi-user Admin Dashboard which allows companies (users) to manage activities within different sectors and their sub-company.
- Implemented statistical charts for data visualisation thus allowing the marketing team in decision making.
- Continuous integration, revamp and maintenance of the company's multi-vendor dashboard.
- Redesigned the company's website, ensuring seamless user access. This resulted in an increased conversion rate with a record of over 4000 new users within two weeks.
- Integrated conversion API into the website to track user activity and engagement over the website. This provided analytics that helped to guide the marketing and user management/retention strategies
- Implemented Google Analytics to track user engagements and interactions with the company's applications thus giving insight into what interests users

Frontend Engineer (May 2023 - February 2025)

Conceptdelapix - CDLP Hub, Ibadan

- Developed web application for bulk purchase and retailing of CUG airtime and data using **React, Nextjs** and styling libraries, working closely with product designers.
- Developed new versions of web products, ensuring cross-browser compatibility and frictionless user experience. This resulted in a 45% boost in user engagement and a 20% increase in conversion rates.
- Implemented a multiple-parameter search logic to seamlessly filter transaction history based on attributes such as date, transaction status, amount, category and customer details.
- Implemented role-based page rendering and integrated payment gateways for online payments
- Implemented visually appealing charts to display analysis of user transactions and product activity, contributing to a 30% increase in product usage within 2 months.
- Implemented robust form validation procedures to ensure data integrity and enhance client-side detail protection.
- Refactored 60% of the application codebase and implemented features to enhance user accessibility and interaction.
- Actively participated in code reviews and provided constructive feedback to enhance overall development practices.
- Configured server-side scripting for local app testing on servers.

Frontend Developer (September 2022 - June 2023)

Toniceli, Ibadan

- Developed a Learning Management System enabling subscribers to take technology and management courses offered by the Pharmacy Examining Board of Canada (PEBC).

- Created pixel-perfect and responsive web pages using **React**.
- Collaborated closely with designers and backend developers to implement and enhance website features and functionalities.
- Constructed web development courses and taught students about HTML, CSS, JavaScript, and React.js, fostering their skills and knowledge.

Frontend Engineer *(Contract)*

Tilspot, Singapore

- Developed bill payment user-facing application
- Developed Admin and Operator dashboard with real-time bill processing capability.

Frontend Engineer *(Contract)*

Wosom Technologies, Cyprus

- Developed the interface of a multisite application, enabling centralized management and development of multisite websites.
- Integrated APIs for user authentication, payment processing and analytical tracking.

Software Development Instructor *(Contract)*

OdumareTech, United Kingdom

- Taught and guided individuals on software development and practices. I created engaging curricula, provided one-on-one support, and fostered an inclusive learning environment to help students thrive in this dynamic and ever-evolving industry.

Frontend Developer *(Contract)*

PSC Tech Hub

- Led a multidisciplinary team of developers, designers and content writers to undertake web-based projects.
- Conducted regular code reviews to ensure code quality, consistency and security.

Frontend Developer *(Contract)*

DaraTech

- Developed and maintained responsive web applications using HTML, CSS and Javascript. • Utilized React.js to build interactive, intuitive and dynamic web interfaces
- Worked closely with the backend development team to integrate RESTful APIs to fetch, display and optimize data performance on webpages.

EDUCATION

B.Eng Agricultural Engineering | Federal University of Agriculture, Abeokuta *July 2021*.
