

(PAGE 1)

Singing of O'Canada

SLIDE ONE - Deputation

Our elected officials have had the courage to come here today and they will be treated with respect. They are under no obligation to answer questions. They are here to listen and learn.

We have also invited the R.C.M.P. to join us this evening as this affects them as well. We also thank them for traffic control.

Disclaimer: This meeting will be recorded and delivered to our local representatives. At the end of this presentation, if you choose, we will take a backview visual recording (to maintain privacy and allow you to be counted) to show, on record, by a raising of hands, for people in favour of this deputation and those opposed.

Without prejudice....

I am Neil Farstad and I am a man who was raised in, worked in and currently retired and living in the Creston Valley area near Creston, British Columbia. My prior history in this area has included land development, construction and logging.

I am David Ripley, a man living within the Town of Creston. The information provided tonight is done with information gleaned from government and international websites and sources. In good faith we have tried to interpret and best decipher what we have found to share with you. If we have misinterpreted any information, we are open to being corrected.

We undertake this deputation with support locally from men, women, residents, citizens and property owners in this geographical area.

We feel today, a day of Remembrance is the perfect day in which we can support and honour, through action, all those who went before us that fought and laid down their lives or forever changed their lives and that of their families to keep Canada safe and free. God bless them all and we thank them for their service to us and we thank them for being here.

Today we are questioning if fraud has taken place within our local governments as it appears they may be governed by a global entity through public/private partnerships. Our local representatives may or may not know this and I'd like to present what I have found.

To our elected officials I have to ask:

- If you, as our elected officials, are not the body in power & control, who is?
- Who's your boss?
- Who's pushing the sustainable development and climate action plans within our organizations?
- Do you feel at all manipulated that such plans of overreach were being slid past you before you even found your feet within your newly elected positions?
- Why do you think that was done to you?
- If these ideologies that are being forced upon the residents turn out to be unlawful and out of your area of jurisdiction, who do you think will take the fall or go to jail?

Exposure of widespread corruption within our Federal, Provincial and local levels of government are more extreme and more frequent, with Trudeau's billion dollar green slush fund being the latest. The Harper government was no better when it "lost" \$3.1 *billion* in anti-terror funding.

SLIDE TWO - Foreign countries infiltrating

In 2011, Canadian Security Intelligence Service (CSIS) Director Richard Fadden warned of foreign countries infiltrating Canada at municipal levels.

So, my question for you is why are you taking your orders from known criminals, without questioning?

"Because we were told to do it" has never been a valid defence. Perhaps, this presentation **may** provide clarity.

Did you know the Town of Creston and Regional District of Central Kootenay offices are United Nations (UN) satellite field offices which are public/private partnerships acting in de facto law?

In this UN partnership, everything can be done by the signatures of only 2 people, the Mayor and the CAO or, in the case of the Regional District, the Chair of the Board and the CAO.

These two people can call a local emergency which is why you had better know who they work for.

Therefore, instead of gathering in their unlawful offices, we have instead, gathered in this neutral place and space in a house of God under God as men and women.

(PAGE 3)

The agenda today is:

- 1) To inform elected representatives of suspected fraud that has taken place.
- 2) To give the restructuring history of all municipalities under the UN Agenda 21 and UN Agenda 2030 where Canada became a UN member nation state in 1992 and appears to have ceased existing as a sovereign country.

SLIDE 3 – Municipal Primer

- 3) To inform you of the non-binding global action plan for sustainable development whereby a UN “Municipal Primer” was sent to all our of local towns via the Federation of Canadian Municipalities and the Canadian Council of Ministers of the Environment outlining how they were to restructure their governments.

All informational items presented here tonight are backed up by supporting documents, any of you can find yourselves or are welcome to view after this presentation.

SLIDE 4 – Agenda 21

By most accounts, the UN Agenda 21 sounds fantastic....at first glance, just as the Climate Action Plans of both the Regional District of Central Kootenay and Town of Creston do. Only until further investigation are other agendas revealed, that are not of benefit to all, especially the earth.

SLIDE 5 – Agenda 21 quotes

Now we come to the history. The following is quoted from the “The Local Agenda 21 Planning Guide”.

“The UN Conference on Environment and Development (UNCED) produced Agenda 21 in 1992, and since that time Agenda 21 has become the guiding international blueprint for development into the twenty-first century. During the preparation of Agenda 21, the

International Council for Local Environmental Initiatives (ICLEI) worked to ensure that this **global plan** also **addressed the roles and perspectives of local governments.**”

As a result, the UN framework was provided to local governments... supposedly? working with their communities, to create their own local action plans for sustainable development. The reality of this implementation is **not** as advertised.

SLIDE 6 – Sustainable Development

(Page 4)

To quote: “Sustainable development, therefore, is a program of action for local and global **economic** reform—a program that **has yet to be fully defined** and ICLEI became the main source of consultation to push and fund the global agenda.”

SLIDE 7– Dowdeswell

An example is: a quote from Elizabeth Dowdeswell, former Executive Director, UN Environment Programme stated that “terms like sustainable development and environmental conservation can often conjure up images of processes **too grand** for local communities and their organizations to handle and influence. For all these reasons, the Local Agenda 21 Planning Guide is more than just another book. It is a lever for changing the art of managing sustainable development at the level of local government. Indeed this guide can serve as a symbol of today’s **historic transformation in the concept of partnerships...**” Is this management or manipulation?

SLIDE 8– Canada Signs on **SLIDE 9– Picture of Earth Summit**

Brian Mulroney signed this international treaty whereby, he agreed Canada would join the UN Global Governance System. Upon his signature, Canada appears to have ceased to operate as a nation – legally and lawfully. All signatories agreed to several UN Declarations (Sustainable Action Plans) as follows:

1. The convention on climate change that:
 - a) Climate change is bad and humans are causing it
 - b) it’s a global problem so no one nation can stop it
 - c) we need global government
2. The UN Agenda 21 charter that:
 - a) only UN “sustainable development” will stop climate change
 - b) all present consumption and production modes are “unsustainable”
 - c) we need global governments

The UN Charter ordered all signatory members to restructure their existing governments. In the UN system:

1. Canada becomes a UN Member state
2. The provinces became sub-national member states
3. The local/municipal became a UN City State

All UN members agreed to partner their existing governments with a “sustainable development” non-governmental organization that would help their country embrace this new “green technology” to save the planet...for a LOT of money.

(Page 5)

SLIDE 10 – Clip from Mulroney stating erasing debt for signing on – *PAUSE FOR SETUP AND PLAYING OF VIDEO*****

UN members use the trademarked sustainable development goals logos. This helps you know who's getting money from the UN/WEF/World Bank.

SLIDE 11 – Development Goals Logo

By the year 2000, countries, including Canada, were being governed by directions of the UN, G7, G20, Council of Foreign Relations, World Economic Forum and World Health Organization, to name a few of the major players. Every one of these organizations is a foreign based non-governmental organization (NGO). Every member of all these organizations are **UN-ELECTED!**

Our Town of Creston was captured by the United Nations/World Economic Forum by the declaration of Office they took when “sworn” in. Once they are “sworn” to serve the municipality, instead of us, they have agreed to “Municipal government” and “regions” instead of “de jure” Canadian (lawful) legislation. They are under a false oath.

SLIDE 12 – PPP Global Governance

The “public officials, the Mayor, Councillors and Regional Directors of The Regional District of Central Kootenay became **partnered with a private corporation**, The Corporation of the Town of Creston and The Corporation of the Regional District of Central Kootenay. An appointed Chief Administrative Officer (CAO) helped implement the global agenda instead of a local one. The local officials became employees to the United Nations by agreeing to take the Community Charter previously known as The Municipal Act, “Declaration of Office” (or DOO).

SLIDE 13 – Guide for Municipal Council Members, etc.

The DOO is a commercial (UN) declaration and public officials are not supposed to take this corporate “oath”. When they do, they become “employees” – in agreement with the Municipal Act or Community Charter and therefore they MUST follow it so taking the DOO gets them into a lot of Doo Doo – us too.

SLIDE 14 – Community Charter

Municipal government = the ORGANIZATION OF THE CORPORATION. The “government” they form internally, the MUNICIPALITY’S “governing officers”, the City’s “Board of Directors”, the City’s LAWS which are legal and commercial. Municipal government is the BUSINESS, the corporation, that provides our services.

(Page 6)

(go slow here – 3 slides to fit in as you speak with long quotes)

SLIDE 15 – Back to Agenda 21

SLIDE 16 -Agenda 21 quote – increasing pace...

SLIDE 17 – Sustainable development....

The UN public/private partnerships look like government and spend like government but they are NOT government. They are in de facto possession of sovereign powers. The UN Global Government system overturns the rightful government and installs its own; has possession of governing powers without right and maintains itself by force and captured regulatory control.

SLIDE 18– Defacto Definition

For those that may not know, the word “De facto” is defined as meaning “accepted (as fact) but unauthorized and illegitimate; installed and founded in deceit and fraud, without lawful title.”

SLIDE 19– Defacto Government Cartoon

A defacto government is defined as “private, corporate secret Mayor/Council/Board; non-governmental organizations.”

SLIDE 20 – De facto government

Public/private partnerships are de facto government – ask any lawyer, 紉賢ave.

SLIDE 21 – De jure

For those that may not know, the word “De jure” means “rightful, legitimate, constitutional and legal; **elected** and **in compliance with every aspect of law.**”

SLIDE 22 – De jure Government

A De jure government is always public, sovereign and autonomous.

SLIDE 23– United Nations Global Government...

If we wonder why all our questions have gone unanswered with regards to the climate action plans and why our overwhelming public input in opposition does not get acknowledged anywhere it is because we have NO Public office. It's vacant and controlled by the UN Public/Private Partnership. So, what we have is a "Municipal" government and not a "local" government.

A forensic audit for the Town of Creston and the Regional District of Central Kootenay will reveal exactly how many **Billions** of dollars have been funnelled both from AND TO the UN through ICLEI and the provincial municipalities since 1994.

(Page 7)

SLIDE 24– Criminal Code Section 46(1)(b)

Regardless of Canada being a UN member, **no level of government or elected public official** has the authority to implement foreign mandates, policies, treaties or any agreements that violate the Canadian Constitution; the Charter of Rights and Freedom; the Bill of Rights or the Coronation Oath. Conspiring with foreign powers to assist in any act preparatory to the takeover of our nation is an act of high treason according to section 46(1)(b) of the Criminal Code of Canada. Elected officials have all whether knowingly or willingly entered into a partnership with international entities who are knowingly committing high treason against Canada. This is a serious, **SERIOUS** matter and we are here to not only make you aware of this corporate takeover but to suggest you get out of it, for both your sake and ours.

SLIDE 25– Criminal Code Section 50(1)

SLIDE 26– Criminal Code Section 122

With that, we would like to speak directly to the elected Mayor and elected Councillors of Creston and to the elected Directors of the Regional District of Central Kootenay. It is not up to me to prove United Nations association, it is up to our officials to DISPROVE THE CLAIM.

The Town of Creston and the Regional District of Central Kootenay must reclaim and reassert the proper trusteeship that elected officials should have for peaceful, orderly good governance. Also, this is a pivotal opportunity for you to set an example for the rest of the country as every municipality and regional district are hostage to the same situation.

To those that are elected – YOU WERE ELECTED TO FORM THE GOVERNMENT ON OUR BEHALF – WITH **OUR TRUST**. **YOU ARE OUR LOCAL LEVEL OF GOVERNMENT.** The town staff and regional district staff are NOT the government.

YOU CAN have the power and authority but you don't. You are MORE than one vote at a table!! Unfortunately, you have been fraudulently partnered through your **contract** and those **contracts** must be renegotiated.

A rightful mayor and council appoint the CAO and staff, and the mayor and council can dismiss them. Elected directors form the local Board of Regional District of Central Kootenay that can appoint the CAO and staff and you can directly dismiss them.

With that, you can work with a lawyer to verify the claims we're making here today. It is now at the point that we really need our elected representatives to step up, step down or step aside.

(Page 8)

Now, questions for elected officials that demand answers:

1. As elected officials what did you sign?
2. Did you understand what oath you were asked to take when you took public "office"?
3. What jurisdiction are you in and who's your employer?
4. Did you sign more than one oath?
5. What you signed designates what jurisdiction you're operating under.
6. The possible proof of the Town and Regional District fraud may be in your oath – who did you swear to serve? A "Covenant" is not an oath with regards to the Town of Creston. And, a "Declaration of Rural Appointment Official" is not an oath.
7. Where is the published law that has been presented to the British Columbia legislature; debated;
brought to vote and been passed and proclaimed regarding the Climate Action Plans;
Sustainable
development; Municipal partnerships and all United Nations public/private partnerships?

If these published laws cannot be produced, these Public/Private partnerships and United Nations Programs are not compliant to British Columbia laws and government is acting in a state of “ultra vires”.

SLIDE 27– Ultra vires

Ultra vires is “A body exercising an invalid excess or power of authority.”

We need to turn back the page to a simpler time when open, transparent, municipal government and regional districts were serving the men and women of their areas in their best interests.

In the coming days, the Creston mayor and councillors and the Regional District Directors will receive an electronic information package which will contain the text of this deputation as well as thought provoking supporting documentation of which we have spoken about here today.

We require a written response to the aforementioned questions by November 30, 2023.

As for the rest of us sitting here, there is no “caped crusader” that will whisk in to change this for us, we have to be proactive and cannot sit back and relax. It is up to us to each of us here to become involved. Here’s your chance.

(Page 9)

SLIDE 28– Voting

We’re going to film, from behind, to protect privacy, and have an informal vote by raising of hands to the following questions.

This film will be sent to the Mayor, Councillors and RDCK Directors.

By a raising of hands.....

“Who supports this deputation?”

By a raising of hands....

“Who is against this deputation?”

Thank you for your patience, your respect in listening and your active participation for changing our future for the benefit of all.

Should you feel inclined, a donation jar is in the foyer where donations will be gratefully accepted to further support this deputation.

Updated Nov. 14/23

Addendum:

SLIDE 26 – Criminal Code Section 122

It has recently been brought to our attention that Section 122 of the Criminal Code of Canada is applicable when there is Breach of trust by public officer.

“Breach of trust by public officer”

122 Every official who, in connection with the duties of their office, commits fraud or a breach of trust, whether or not the fraud or breach of trust would be an offence if it were committed in relation to a private person, is guilty of

- (a) an indictable offence and liable to imprisonment for a term of not more than five years; or ...
