

## Timelines and Plan Books

**Definition:** The process of developing a task, series of tasks, or unit of instruction based on analysis of students' learning needs that includes:

- 1) identifying the learning intentions and success criteria for proficiency based on the Utah core standards
- 2) determining the design approach aligned to the learning intentions
- 3) building the lesson plan including the strategies and curricular tools best suited to support student learning

### Components:

- Use **timelines** to prioritize the standards and guide the big ideas taught during the year within allotted timeframes
- Maintain a **well structured** plan book that is visible and referenced throughout the day
- Enter **content** in your plan book that is visible and referenced throughout the day
- Post **learning intentions** and refer back to them
- Plan the full class **time** to teach content
- Identify and teach **behavior expectations** to make each part of the lesson run smoothly
- Plan a **hook, gradual release, and a closure**
- Plan for **student engagement**
- Plan what the teacher and students should be writing, doing, and asking during the lesson (**visible learning**)
- Plan for **differentiation**
- Use language and **vocabulary** described in the standards and assessment
- Plan the **questions and depth of rigor** to be presented during the lesson
- Set out all **materials**, supplies, and copies needed to present the lesson before students enter the room

### Steps:

1. Timelines ✓ 
2. Structure ✓ 
3. Content ✓ 
4. Preparation ✓ 

When **all four parts are checked**, you are **planned and prepared** to **deliver the content to the students**.

## Timelines and Plan Books

1) TIMELINES	2) STRUCTURE	3) CONTENT	4) PREPARATION
<p></p> <p>The timeline is the “funnel” that <i>prioritizes and guides</i> the <b>CONTENT</b> in your plan book.</p> <p><b>TIMELINES</b> Use timelines to summarize the big ideas to be taught throughout the course and how many days each topic should take to teach.</p> <p>1. Determine the <b>total teaching days available</b> using your district/school calendar.</p> <ul style="list-style-type: none"> <li>• <a href="#">Granite School District Calendars</a></li> </ul> <p>2. Identify the <b>big ideas/units</b> for each subject you teach and the state/district <b>recommended time frames</b>.</p> <ul style="list-style-type: none"> <li>• You will need the <a href="#">Curriculum Maps</a> and/or <a href="#">Utah Core Standards</a>.</li> </ul> <p>3. Compare how the recommendations fit with the <b>actual time available</b> specific to your school and <b>make adjustments</b>.</p> <ul style="list-style-type: none"> <li>• If available, use <b>previous timelines</b> for each course/subject you teach and refine them with your PLC.</li> </ul> <p><b>Repeat</b> for every subject you teach.</p> <p>Example <a href="#">Timeline Template</a></p>	<p></p> <p>The structure makes adding <b>CONTENT</b> efficient.</p> <p><b>PLAN BOOK STRUCTURE</b> Use an electronic plan book structure that includes each of the steps below.</p> <ol style="list-style-type: none"> <li>1. Create a structure that is easy to: <ul style="list-style-type: none"> <li>• edit</li> <li>• <b>copy &amp; delete</b></li> <li>• <b>move</b> activities from one day to another</li> </ul> </li> <li>2. Include the date, time of day, and duration for each subject.</li> <li>3. An area to keep track of to-do tasks and/or materials to prepare.</li> </ol> <p><b>Repeat</b> for every subject you teach.</p> <p>Example <a href="#">Plan Book Template</a> includes both a weekly view and course view</p>	<p></p> <p>The content is the “compass” that <i>prioritizes and guides</i> your <b>PREPARATION</b>.</p> <p><b>PLAN BOOK CONTENT</b> Enter content using your timelines. The plan book holds the overview of each lesson. It should be <b>visible</b> and <b>referenced</b> throughout each day.</p> <ol style="list-style-type: none"> <li>1. Schedule the <b>last day</b> of the unit AND the <b>unit assessment</b>.</li> <li>2. Divide the content from the unit into <b>individual days</b>.</li> <li>3. For <b>each individual day</b> enter the: <ul style="list-style-type: none"> <li>• Objective for the unit</li> <li>• Topic for the specific lesson</li> <li>• Learning intention for the specific lesson</li> <li>• Curriculum or resources used for the lesson</li> <li>• Key vocabulary</li> <li>• Student task(s) for the lesson</li> </ul> </li> </ol> <p><b>Repeat</b> for every subject you teach.</p> <p>Example <a href="#">Plan Book Scoring Guide</a> includes both Structure and Content</p>	<p></p> <p>The questions are an internal interview that you have with yourself to <i>plan</i> each lesson. You should know the answer to each question.</p> <p><b>LESSON PREPARATION</b> Lesson Design + Classroom Culture = <b>Student Engagement</b></p> <ul style="list-style-type: none"> <li>• What learning theory will I use? <a href="#">Explicit</a> or <a href="#">Inquiry</a></li> <li>• Who are my students and what do they already know? (student data/background)</li> <li>• What procedures do I need?</li> <li>• What purposeful groupings will I use?</li> <li>• How will I make student learning visible? (speak, write, physical response consistent with the objective)</li> <li>• What will the teacher be doing?</li> <li>• What will the students be doing?</li> <li>• What materials, resources, and technology need to be prepared?</li> <li>• What vocabulary must students use in this lesson?</li> <li>• How will I share the learning intention(s) and success criteria?</li> <li>• What data will I use to determine, to what extent, each student meets the learning intention(s) of the lesson?</li> <li>• How will I simultaneously model?</li> <li>• How will I use gradual release?</li> <li>• What can I scaffold to support students?</li> <li>• What parts of the lesson should I differentiate?</li> <li>• How will I monitor learning (<i>gather data</i>) during the lesson?</li> <li>• How will I check for understanding?</li> <li>• What types of feedback will I provide?</li> <li>• How will I close the lesson?</li> <li>• How will I reteach/enrich?</li> </ul>
