

Application Update - Release 2 Notes

June 2023

Update

iVectorOne has been updated with additional features, the details are outlined below. The new features are tested, backwards compatible and non-breaking, and can be optionally taken advantage of when you are ready.

New Features

1. Improvements to the Expedia Interface

Changes have been made to the information returned through the Expedia interface. Accounts using Expedia will now see Sale Scenarios returned in an additional details section for each room result in the search response.

2. Adding Travia connection to iVectorOne

A new Supplier connection has been made for Travia
