THE NIGHTHAWK IMPERIUM

NRB | BD Alternate Entry System

Overview

The Black Daggers are the elite border defenders of the Nighthawk Reaper Battalion. The purpose of the Alternate Entrance Program is to allow for more members who may not be capable of attending OTs to gain entrance into the subdivision. In order to pass this AEP, you must demonstrate outstanding capabilities in combat, teamwork, and, in particular, maturity.

Eligibility

You must meet the following criteria to be eligible for the BD AEP:

- ❖ Recruit or higher in NRB.
 - ❖ You may not apply on an alternate account. Account age should be 1 month+
 - ❖ No punishments throughout TNI in the past 30 days. Major punishments on your record will result in rejection.
 - ❖ Not in Red Cell or any divisions in Red Cell.
-

Goal

You will be given two months to prove your worth and make it through the program, completing different challenges and gathering full-screen screenshots for proof of completion using the preferred screen-capturing program of your choice. Whether it be LightShot, Xbox game bar, Gyazo, or any other program. It is required to include one's time & date on these screenshots.

Objectives

Each week, there are a set of objectives released for the members of the program to complete. These vary in difficulty, and may be centered around various places such as a practice raid from any part of TNI, hitting a kill requirement in th3ltgrounds, performing consistently in the top five at a Black Daggers event, or getting a certain amount of kills at a Border Defense.

Submission

Once one has completed an objective, they are required to submit them using the objective submission form.

Progression

All prospective members are given two months of time to prove their worth and progress through the program. However, members are able to speed this up depending on how skilled the candidate is and how quickly they are able to improve. Those who perform exceedingly well will get the chance to pass this program early.

The alternate entrance program bears two primary pathways.

The standard pathway may be taken by completing three week's worth of standard objectives.

The fast-track pathway may be taken by completing two week's worth of standard and bonus objectives back-to-back. Should one fail to complete a second week of objectives, their fast-track timer is reset.

Upon completion of either the standard or fast-track pathway, a vote is casted in which the Black Daggers Officer Core will be voting on your ascension. Should one fail their vote, a second one is casted one week from when the previous vote was closed. Failing the second vote will result in removal from the program.

Rules

- ❖ While you are a part of BD AEP, you do represent Black Dagger. Make sure to follow all of TNI and NRB's rules.
- ❖ Follow the ROBLOX and Discord Terms of Service.
- ❖ Maintain great levels of discipline and maturity whilst actively serving within the alternate entrance program.
- ❖ Do not in any way manipulate the photo evidence taken by yourself when submitting a completed objective.
- ❖ It is required to include one's time & date on the screenshot(s) for objective submissions.

Consequences

If caught cheating in any form or fashion, you will be removed from the alternate entrance program. There are no exceptions to this.

Major disciplinary infractions obtained by one during their stay within the alternate entrance program will also result in removal.

Some punishments include warnings, mutes, suspensions, strikes, or removals.

Conclusion

In short, this document is a brief explanation of what the BD AEP is and how it functions.

If you have any questions, please forward your concerns to either of the current AEP management staff: Legomaster25182028 & Fen_sy.
