**Session 5 Investigation
Brainstorming Components & Processes**

Brainstorming Question: What components and processes are involved in decomposition and the carbon cycle at Crystal Cove State Park?

Directions: Think about what you know about the ecosystem in Crystal Cove's Moro Canyon. In the table below, make a list of all of the biotic components, abiotic components, and processes that you think are involved in decomposition and the carbon cycle in Moro Canyon.

Make sure to include biotic components, abiotic components, and processes that we can observe, as well as those that we might not be able to see!

Biotic Components	Abiotic Components	Processes
