C. Reading(2pts)

I. Read the passage then choose the best answer: (1pt)

Music influences people in different ways or the same person differently at different times. Music may seem to influence people differently. That is because people can react differently to the music. We are able to apply a choosing process to the music we hear. If someone hates jazz, then a jazz piece with a positive effect will probably not make him feel good. A happy song might appear to make an angry person angrier, yet it is not the music itself that is creating the anger; rather it is the positive effect of the music. The angry person does not want to accept the song's happy feeling: it points out his already existing anger, and makes that anger come to the surface. When a piece of music is played and we are listening to it, our body, mind, and feelings are being affected. The musicians of ancient cultures such as China, India, Turkey and Greece understood the effects of music. In fact, Pathagoras, in ancient Greece, introduced a whole science that concerned them. Because the musicians of these ancient cultures understood these effects, they created music that was positive, uplifting, and beneficial. **Once** the effects of music are better understood, the next step is to gain a better understanding of the music around us, and what effect it is actually having.

VI (1,5 points) Read the passage and choose the best option A, B, C or D to answer the question.

Along with jogging and swimming, cycling is one of the best all-round forms of exercise. It can help to increase your strength and energy, giving you more efficient muscles and a stronger heart. But increasing your strength is not the only advantage of cycling. Because you're not carrying the weight of your body on your feet, it's a good form of exercise for people with painful feet or backs. However, with all forms of exercise it's important to start slowly and build up gently. Doing too much too quickly can damage muscles that aren't used to working. If you have any doubts about taking up cycling for health reasons, talk to your doctor and ask for his/her advice.

Ideally you should be cycling at least two or three times a week. For the exercise to be doing you good, you should get a little out of breath. Don't worry that if you begin to lose your breath, it could be dangerous and there must be something wrong with your heart. This is simply not true; shortness of breath shows that the exercise is having the right effect. However, if you find you are in pain then you should stop and take a rest.

1. People with back problems might go cycling because _____.

A. it enables them to carry the weight of their body on their feet

B. it does not make them carry the weight of their body on their feet

C. it helps to make their backs become stronger

D. it helps them to relieve their backache

2. All forms of exercise must be started_____.
- A. gradually B. quickly C. strenuously D. violently
3. According to the writer, it is best to go cycling_____.
- A. once a week B. at least two or three times a week
- C. at least two or three times a day D. every day
4. You should not worry about the shortness of breath because_____.
- A. it shows that there is something wrong with your heart
- B. it shows that you should stop and take a rest
- C. it is a sign of exercise having the right effect
- D. it is a sign of your getting rid of your heart problem
5. Which of the following is NOT included in the advantages of cycling?
- A. Giving you a stronger heart B. Increasing you strength and energy
- C. Giving you better muscles D. Making you look younger

VII/ (1,5 points) Fill in each blank with one suitable word.

Energy is one of the problems that many people are interested in. It is not an unfamiliar word. It is heard, said, discussed day after day. It is close to everyone's (1)_____ life. You turn on the lamp and it is (2)_____ that gives you light. You turn on a TV and it is energy that gives you pictures and sound. You ride a motorcycle and it is energy that gives you movement. You (3)_____ your meals and it is energy that gives you heat to boil rice.

The problem is that the demand for energy is rising and that the price of energy is getting (4)_____ and higher. The supply of energy on earth is limited. It cannot provide us all forever. The shortage of energy in the future is inevitable. Therefore, (5)_____ energy is a must if we want to continue to live in a safe and sound world.

VI. Read the text, then answer the questions below it (2 pts)

Clothes can tell a lot about person. Some people like very colorful clothes because they want everyone to look at them and they want to be the center of things. Others like to wear nice clothes, but their clothes are not colorful or fancy. They do not like people to look at them. Clothes today are very different from the clothes of the 1800s. One difference is the way they look. For example, in 1800s, all women wore dress. The dresses all had long skirts. But today, women do not wear dresses with long skirts. Sometimes they wear short skirts. Sometimes they wear pants. Another difference

between 1800s and today is the cloth. In the 1800s, clothes were made only from natural kinds of cloth. They were made from cotton, wool, silk. But today, there are many kinds of man-made cloth. A lot of clothes are now made from nylon, rayon or polyester.

V. Read the passage and choose the best answer for the questions.(1pt)

Every year people in many countries learn English. Some of them are young children. Others are teenagers. Many are adults. Some learn at school. Others study by themselves. A few learn English

just by hearing the language in films, on television, in the office or among their friends. Most people must work hard to learn English.

Why do all these people learn English? It's not difficult to answer this question. Many boys and girls learn English at school because it is one of their subjects. Many adults learn English because it is useful for their work. Teenagers often learn English for their higher studies because some of their books are in English at the college or university. Other people learn English because they want to read newspapers or magazines in English.

VI (1,5 points) Read the passage and choose the best option A, B, C or D to answer the question.

Along with jogging and swimming, cycling is one of the best all-round forms of exercise. It can help to increase your strength and energy, giving you more efficient muscles and a stronger heart. But increasing your strength is not the only advantage of cycling. Because you're not carrying the weight of your body on your feet, it's a good form of exercise for people with painful feet or backs. However, with all forms of exercise it's important to start slowly and build up gently. Doing too much too quickly can damage muscles that aren't used to working. If you have any doubts about taking up cycling for health reasons, talk to your doctor and ask for his/her advice.

Ideally you should be cycling at least two or three times a week. For the exercise to be doing you good, you should get a little out of breath. Don't worry that if you begin to lose your breath, it could be dangerous and there must be something wrong with your heart. This is simply not true; shortness of breath shows that the exercise is having the right effect. However, if you find you are in pain then you should stop and take a rest.

1. People with back problems might go cycling because _____.

A. it enables them to carry the weight of their body on their feet C. it helps to make their backs become stronger

B. it does not make them carry the weight of their body on their feet D. it helps them to relieve their backache

2. All forms of exercise must be started_____.

- A. gradually B. quickly C. strenuously D. violently

3. According to the writer, it is best to go cycling_____.

- A. once a week B. at least two or three times a week
C. at least two or three times a day D. every day

4. You should not worry about the shortness of breath because_____.

- A. it shows that there is something wrong with your heart C. it is a sign of exercise having the right effect
B. it shows that you should stop and take a rest D. it is a sign of your getting rid of your heart problem

5. Which of the following is NOT included in the advantages of cycling?

- A. Giving you a stronger heart B. Increasing you strength and energy
C. Giving you better muscles D. Making you look younger

VI/ (1,5 points) Fill in each blank with one suitable word.

Energy is one of the problems that many people are interested in. It is not an unfamiliar word. It is heard, said, discussed day after day. It is close to everyone's (1)_____ life. II.Read the following passage and answer the following questions. (1,5pt)

Solar energy is a long lasting source of energy which can be used almost anywhere. To generate solar energy, we only need solar cells and the sun! Solar cells can easily be installed on house roofs, so no new space is needed and each user can quietly generate their own energy. Compared to other renewable sources, **they** also possess many advantages. Wind and water power rely on turbines which are noisy, expensive and easy to break down. Solar cells are totally silent and non-polluting. As they have no moving parts, they require little maintenance and have a long lifetime.

However, solar energy also has some disadvantages. We can only generate solar energy during daytime because the system depends on sunlight. Besides, solar cells require large area to work effectively. The main disadvantage of solar energy is that it costs about twice as much as traditional sources such as coal, oil, and gas. This is because solar cells are expensive. Scientists are hoping that the costs of solar cells will reduce as more and more people see the **advantages** of this environmentally friendly source of energy.

1. What does the passage primarily discuss?

A. Advantages and disadvantages of solar energy.**B. Solar energy's advantages over other sources of energy.**

C. The cost of solar energy.

D. Solar energy as an alternative for fossil fuels.

I often hear or read about “natural disaster”- the eruption of Mount St Helen, a volcano in the state of Washington: Hurricane Andrew in Florida; the floods in the American Midwest; terrible earthquakes all over the world; huge fires; and so on. But I’ll never forget my first personal experience with the strangeness of nature – “the London Killer Fog” of 1952. It began on Thursday, December 4th when a high –pressure system (warm air) cover southern England. With the freezing-cold air below, heavy fog formed. Pollution from factories, cars, and coal stoves mixed with the fog. The humidity was terribly high, there was no breeze at all. Traffic (cars, trains, and boats) stopped. People couldn’t see, and some walked onto the railroad tracks or into the river. It was hard to breathe, and many people got sick. Finally on Tuesday, December 9th , the wind came and the fog went away. But after that, even more people got sick, many of them died.

The zipper is a wonderful invention. They are very common so we forget that they are wonderful. They are strong, but they open and close very easily. They come in many colors and sizes. In 1810s, people in the US wore high shoes or clothes with long row of buttons. It was hard for them to wear anything. They wanted an easier way to put on and take off clothes. White comb Judson invented the first zipper in 1839. He called it a slide fastener.

A zipper has three parts. There are dozens of metal or plastic teeth in two rows. These are fastened to two flexible strips of cloth. A fastener slides along and fastens the teeth together. When it slides the other way, it takes the teeth apart.

The Americans are keen to win the race to send human beings to Mars. In 1992, the new boss of NASA, Dan Goldin, called on the American people to be the first to send explorers to another planet in the solar system. He reminded them of the symbolic gift carried to the moon and back by the Apollo 11 mission. It bears a message intended for the crew of the first spaceship to visit Mars. Goldin thinks it is time to begin the preparation for this historic journey. His speech echoed the words of the President, who promised that in 2019, 50 years after Neil Armstrong became the first man to set foot on the moon, the first astronaut would stand on Mars.

By the end of the twentieth century, various unmanned spaceships will have thoroughly investigated the surface of the planet. But, however clever a robot may be, it cannot match the type of information which can be gained -from direct human experience. The first geologist on the moon, Harrison Schmitt, was capable of interpreting the story of the landscape on the spot. Until humans walk on the red deserts of Mars, we will not be able to determine the history of this frozen world in any detail.

Question 27: Who called on the Americans to be the first to send explorers to another planet in the solar system?

A. The president

- B. Dan Goldin
- C. Neil Armstrong
- D. Harrison Schmitt

Question 28: According to the American President, when would the first astronaut probably stand on Mars?

- A. 1969
- B. 1992
- C. 2019
- D. 2050

Question 29: According to the passage, by the end of the twentieth century, many will have thoroughly investigated the surface of the planet.

- A. manned spaceships
- B. astronauts
- C. robots
- D. unmanned spaceships

Question 30: According to the passage, which of the following statements is NOT true?

- A. A clever robot and a human being can provide the same information from Mars.
- B. The first geologist on the moon was Harrison Schmitt.
- C. We will not be able to determine the history of Mars in any detail until humans walk on it.
- D. The Americans are keen to win the race to send human beings to Mars.

(39 – 43). Read the passage below and then decide whether the statements that follow are True or False.

Many people now think that teachers give students too much homework. They say that it is unnecessary for children to work at home in their free time. Moreover, they argue that most teachers do not properly plan the homework tasks they give to students. The result is that students have to repeat tasks which they have already done at school.

Most people agree that homework is unfair. A student who can do his homework in a quiet and comfortable room is in a much better position than a student who does his homework in a small, noisy room with the television on. Some parents help their children with their homework. Other parents take no interest at all in their children's homework.

It is important, however, that teachers talk to parents about homework. A teacher should suggest suitable tasks for parents to do with their children. Parents are often better at teaching their own children!

39. Many parents would like their children to have less homework.

40. Parents think that students should do a lot of work in their leisure time at home.

41. A lot of homework has not been planned properly, according to many

(39-43). Read the passage below carefully and choose the correct answer a, b, c or d.

I get a lot of letters at this time of the year from people complaining that they have a cold which won't go away. There are so many different stories about how to prevent or cure a cold that it's often difficult to know what to do. Although colds are rarely dangerous, except for people who are already weak, such as the elderly or young babies, they are always uncomfortable and usually most unpleasant. Of course, you can buy lots of medicines which will help to make your cold less unpleasant, but you must remember that nothing can actually cure a cold or make it go away faster. Another thing is that any medicine which is strong enough to make you feel better could be dangerous if you are already taking drugs for some other illness so always with your chemist or doctor to see whether they are all right for you. And remember they might make you sleepy – please don't try to drive if they do! Lastly, as far as avoiding colds is concerned, whatever you may be told about magic foods or drinks, the best answer is to keep strong and healthy – you'll have less chance of catching a cold, and if you do, it shouldn't be so bad!

THE TELEPHONE

You may use the telephone every day but how much do you know about it? The telephone was invented by Alexander Bell in 1876. Bell was born in Scotland in 1847. Later he went to live in the USA. Bell was always interested

in sound. He wanted to be able to send sound through a wire. He had a workshop in his house in America and did many experiences there.

One day, he was doing an experiment in his workshop. He was careless and spilt some burning liquid onto his clothes. Talking into his telephone, Bell said, 'Mr. Watson, I want you to come over here immediately, please.' His assistant, Watson, was in another room far away from the workshop. However he heard Bell clearly on his own telephone. Quickly, he ran to Bell's workshop. 'Mr. Bell, I heard every word you said!' Watson shouted excitedly.

Bell had finally succeeded. He had invented the first telephone. Later other inventors made better ones.

MY HOME TOWN

I was born in Newcastle, a city in the North East of England. Newcastle is on the bank of the River Tyne. It is a quite big city of about 200,000 inhabitants. There is a cathedral and a university. There are five bridges over the River Tyne, which link Newcastle to the next town, Gateshead, where there is one of the biggest shopping centres in the world, the Metro Centre. ,

A few years ago, the main industries were shipbuilding and coal - mining, but now the chemical and soap industries are important.

I moved from Newcastle ten years ago but I often return. I miss the people, who are so warm and friendly, and I miss the wild, beautiful countryside near the city, where there are so many hills and streams.
