Department: Mathematics and Statistics

Course Information: MATH 0103 Basic Math

Instructor: Professor Schirle

Below is information about the sections of the course, the number of LAs we expect to hire per section, and the meeting times that you will be expected to attend for each section.

Before you apply, ensure that these times fit into your schedule.

Section #	**Expected Number of LAs for this section**	**LAs need to attend course functions at the following times:**
1	1	Section 001: MWF 1:00 - 1:50 P.M. Discussion

In addition to being available for the times listed above, working as an LA also requires the following:

1. All LAs must meet weekly with their faculty member to prepare for the following week's events at a time mutually acceptable to the faculty and LA
2. **All new LAs** must be available to attend a training from 4:30pm – 8pm on Wednesday, January 14th, 2026 (if you have extenuating circumstances that prevent you from attending this training, please contact Carrie Misuraco at cmisurac@d.umn.edu)
3. **All *new* LAs** must be available to complete training on one of the following weekly times:

    Wednesdays 3-3:50pm
    Wednesdays 4-4:50pm
    Thursdays 2-2:50pm

What will an LA do in this course?

The role of the LA varies slightly in each course. Read below for more information from Professor Schirle on the LA's role in this course.

What is the role of the LA in this course?
LAs in this course will have the opportunity to work with students who are building foundational skills in mathematics. LAs will provide real-time feedback to students to help them build understanding and confidence in important course material. LAs may also have the opportunity to host review sessions outside of usual class time.

How could being an LA for this course benefit you?
Being an LA is a wonderful opportunity to boost your own understanding of mathematics and develop communication skills, which will be a vital component of any future career. Working as an LA is a great line item to add to your resume or CV.
